

Welcome to “News, Views, and Insights”

Welcome to the Yavapai County Republican Party “News, Views, and Insights”. We at YavGOP hope you will find this information helpful, factual, insightful and something you will share with your friends, family, neighbors, and Democrats (not that your friends, family members, and neighbors aren’t also Democrats, but we know we can change that situation).

Our target audience is everyone in Yavapai county and, what the hell, Arizona, but we especially want to provide the information to enable our volunteers, precinct walkers, phone bank volunteers, wonderful members on the corner of Gurley and Cortez and the members of the amazing, vibrant local Republicans organizations – College Republicans at Embry-Riddle University, Yavapai Republican Men’s Forum, the Republican Women of Prescott, and the Yavapai County Republican Women-to discuss issues with anyone and everyone.

The information we are providing now is a modest start that we will add to throughout the year. Please feel free to provide feedback on the things we post here and suggested topics for future articles and postings. You may provide your suggestions directly to me, Hal Bray, at halbray5987@gmail.com or by contacting us at 928.776.4500 or at info@yavgop.org

The picture is my granddaughter, Madeline. I do this for her and her generation.

One of my favorite thoughts is from Edmund Burke in 1795: “The only thing **necessary** for the **triumph** of **evil** is for good men to do nothing.”

The thought of leaving her and her generation in a secular world with mountains of debt, high taxes, identity politics, full term abortion, sanctuary cities, no second amendment rights, racism, judicial activism, the administrative/command and control state, anti-Semitism and hatred of Israel, socialism, universal

healthcare/Medicare-for-all, open borders, entitlements for illegal immigrants, equal outcomes verses equal opportunity, radical environmentalism, gender identity ideology, intersectionality, cultural appropriation, toxic masculinity, diversity for the sake of diversity, white privilege, multiculturalism, and other Progressive visions, delusions, or solutions is not acceptable. I would not forgive myself.

So, thanks for all you do and here is to all we will accomplish as we go forward in this, the most important election of our lives.

Hal
