DAY 5, Wednesday, June 28

Sacred Valley Health Meeting & Community Visit

After an early breakfast head to the **Sacred Valley Health** offices at Ollantaytambo. Meet with staff and learn more about their missions. Sacred Valley Health was formed in 2012 to improve access to healthcare in remote communities of Peru’s Sacred Valley. With a dedicated staff, we recruit, train, and support *promotoras* (community health workers) who provide fundamental health education in their home communities.

Head out to visit a **rural community** for a tour and further discussions on challenges accessing care. The nearest clinic is hours away from much of our catchment area and the closest hospital is even further. Geographic isolation, poor road conditions, and irregular transportation are all barriers to accessing care. Socioeconomic disparities, limited resources, and inadequate education also contribute to poor health outcomes. Rates of preventable disease – such as malnutrition, respiratory illness, and diarrheal disease – are disproportionately high.

Late this afternoon, take the *Vistadome* train to **Machu Picchu**. During the journey, see the hanging bridge that signals the start of the Inca Trail, following the course of the Urubamba (or Vilcanota) River climbing down a canyon headed to Aguas Calientes.

Dinner will be provided at the hotel this evening.

**Overnight: El Mapi Hotel Machu Picchu
Included meals: Breakfast, Lunch & Dinner**

Altitude Sickness - We recommend you check with your personal physician to see if an altitude sickness medication is right for you. *Those who live at sea level, or a lower elevation should pay particular attention.*

Lunch will be provided this afternoon. First stop is the **Pisac Market**, famous for its fine jewelry, ceramic, and textile craftwork. Pisac is a beautiful location where Incan and Colonial influences have reached a perfect balance and created the unique way of life of the local inhabitants.

Immediately following, stop for a visit at the **Ollantaytambo Rural Medical Clinic** or similar. Spend time learning from the staff about access to care issues facing the clinic. Learn how they treat the local patients and current staffing challenges.

Check into your local hotel with dinner on your own arrangement.
