

WANTED:
Good Homes for Red-Eared Slider Turtles

Minimum requirements for adoption:

Juveniles: 20-gallon tank (a larger tank will be needed later)

Adult male: 55-gallon aquarium or indoor pond

Strong filter (Fluval-style canister preferred for aquariums)

Haul-out spot equipped with heat light and UVB light bulb

Adult female sliders require at least a 75-gallon tank

Preferred Set-Up:

Escape-proof pond or pond in escape-proof yard.

Outdoor winter hibernation allowed if pond is below frost line.

300 gallons minimum required for hibernation

(New turtles must be added to a pond between May and September.)

Indoor winter housing needed if pond is too shallow.
