

Filter Press System and Platform - fabricated by TriStar Ltd.

TriStar Ltd has 18 years of experience in custom fabrication and welding. Starting as a valve distributor, we have continuously added to our capabilities. We are the largest remanufacturer of industrial filtration equipment. TriStar does work for many OEM's by fabricating everything from tank platforms to valve ends.

Large Skids, Platforms, and Systems

TriStar fabricates large skids, structures, platforms, and process equipment systems. Our large scale fabrication capabilities include:

- 50 ton crane capacity
- ASME Code Vessels
- 3D CAD Design
- Design Consultation
- Welding in all metals
- Sandblasting and painting

Cooling Tower Pump Skid - Dual pumps, basket strainer, common piping headers

Clarifier and Filter Press Skid - New and refurbished components

Large Circular Clarifier - Part of a larger filtration system, features all stainless tank and internal baffles

Biodiesel Skid - Fabricated for a biodiesel system OEM. Features new control panel, refurbished tank, and special mixing system.

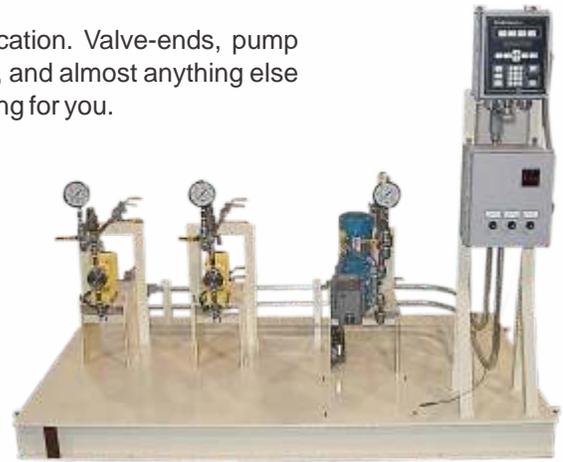

Water Treatment System - Complete package water treatment system including all piping, valves, pumps, controls, and enclosure

Small Skids and Pump Bases

Small skids and pump bases are where we got our start in fabrication. Valve-ends, pump bases, metering pump skids, water heaters, boiler skids, filter skids, and almost anything else can be built to your design or TriStar can do the design and engineering for you.

Two Small Pump Skids - Stainless steel frames, stainless and copper piping with valves from TriStar

High Pressure Meter Pump Skid - Complete skid including controls, pumps, base, valves, and instruments

Welding

We work in all types of metals including stainless, carbon, hastelloy, titanium, and aluminum. Valve Ends and Fittings.

ASME code welders and code stamps available.

Control Panels

TriStar builds its own control panels. We can use any type of enclosure including explosion-proof.

We can provide touch-screen, PLC-driven automation for your entire system.
