

INCARNATION OF THE KING

The purpose of this illustration is to depict the astronomical array of the Sun, Moon and Stars as they occurred on September 11, -3 BC. This date is believed by many to be the correct date of the birth of Jesus Christ onto the world. The theory is 1 among many but if given the astronomical significance of what led-up to this configuration, it does provide a very convincing scenario. What is prominent is that the Revelation 12 Sign is suggested in this array as the Sun is in Virgo with the Moon approaching the area of the feet of Virgo. In terms of the 3-planet alignment, there is Jupiter, the King planet that is conjoined with the King Star of Regulus in Leo, the King Sign of the Mazzaroth. Here lies a triple witness of the Sign, the Star and the Savior's Planet. Moreover, the King Planet, the Star of the King, Jupiter had a triple conjunction with Regulus in Leo due to its retrograde. To the Wise Men of the East, those that were in Babylon and where of the teachings of Daniel, this was the Sign and the Star that they took note of and subsequently led them to Bethlehem. It was there and then that they came upon Jesus, already a young toddler, not a new born baby as taught traditionally. There is a misconception that the Wise Men were only 3 as that is the amount of gifts that were presented to Jesus in the Biblical narratives but there could have been more.

THE RECEPTION

Also, the Wise Men were not present at the birth of Jesus. But the Shepherds out in the hills of Judea were. They were on the outskirts of Bethlehem when Angels announced to them the birth of the King of the Universe. The Prophecy of Genesis 3:15 had come. The Seed of the Woman was born, incarnated. This is an amazing aspect to consider that the Creator, was born of a woman, a human, having a body as it was prophesied also in the Bible. Why? Jesus came to redeem Adam's race as a man. What was also unique in setting up this astronomical array as evidence of the true date of the birth of Jesus is that Venus and Jupiter also had a triple conjunction within the Signs of Leo and Virgo. It was actually 9 months prior to this astronomical array that the 1st conjunction of Jupiter with Venus occurred in Leo.

STARS OF LEO

The following are the main Stars of Leo and their prophetic Bible meaning that defines their attributes, destiny and meaning of the Messiah.

The Sign of Virgo is the 1st 'House' or 'Chamber' of the Mazzaroth or Zodiac. Leo is the last Sign. This is the motif fused in the Sphinx for example. The Sun appears to run its course along the line called the Ecliptic. The approximately sends 1 month in each of the 12 Signs that mirrors a 'clock' of 12 hours. Around September to October of each year, the Sun traverses through Virgo. Due to the cycles of the Moon, an approximation of the book of Revelation 12 is depicted. What the Great Sign configures on September 23, 2017 is the uniqueness of having Jupiter, as the Planet of the Messiah and thus the metaphorical Man-Child possibly correlate to a type of a rapture. The depiction is insinuating a 'Rapture', perhaps as a prelude but its fulfillment will occur at the 1260th day mid-Tribulation timeframe.
