Central Arizona AWIS

Dear AWIS Member,

We hope you are having a great semester. For the next few months we have many upcoming events. On October 23rd we will have our monthly seminar luncheon, **STEM Careers and Pathways**, where we have invited a panel of PIs, grad students and postdocs who will describe research opportunities in STEM labs at ASU and what you need to know to get in and be successful. This is a catered event so please RSVP at events@awis-caz.org if you would like to attend.

In addition to our general list of other events and outreach activities we want to announce that this year the **Jumpstarting STEM Careers** event will be held as a one day conference on Friday January 15th, 2016. This will be an all STEM event, which will include speakers representing professionals from Science, Technology, Engineering and Mathematics. These speakers will come from employers such as Google, Intel, Amazon.com, NASA and ASU to name a few. There will also be a poster session that all STEM students are invited to participate in. The posters will be judged by our speakers who will award cash prizes. For more information or to register please visit our [website](#).

Best Regards,
Page Baluch
Central Arizona AWIS President
