SUSPECTED ISRAELI NUCLEAR ARSENAL AND THE MID-EAST ARMS RACE

The purpose of this illustration is to highlight the well-known Military Might of Israel and its Speculative Nuclear Arsenal. It is believed that Israel possesses Nuclear Weapons since Mid-1960s. Since then, the Nuclear Arms Race in the Middle-East ensued, to this Day. Although no Official Statistics exist, it has been estimated that Israel possesses 100 - 400 Type of Nuclear Weapons. Because of the off-set in this Balance of Power, neighboring Muslim States as Iraq, Syria and Iran have sought their own Nuclear Programs. Israel seeing these other Programs as an Existential Threat to its National Survival. Israel Preemptively struck at Iraq's Nuclear Reactors in 1981 and Syria's in 2007. Currently Iran is about to go Nuclear. Israel takes the Islamic Militant Threats to 'Wipe Israel off the Map' literally. A possible Scenario of a Mid-Size Nuclear burst over Damascus will be illustrated for its effects. This Scenario is prophetically based on the Book of Isaiah 17. Israel may likewise strike Iran and/or Syria as the Nations are playing a Prophetic Scenario that if is believable and true, will lead the entire world to the Psalm 83 War, then the Ezekiel 38 War and then the Battle of Armageddon.

The term 'Samson Option' is used to describe Israel's alleged nuclear deterrence strategy of massive retaliation with nuclear weapons as a "last resort" against the Arabs that are attacking them to the point of 'mutual assured destruction.' It is taken from Judges 13-16 of the Bible. The whole Jewish world population stands at just over 7 million. Any threat from a nation of a genocidal attempt at extermination of the race and Faith is taken literally by the Jewish government. As it has shown in the past, Israel will not hesitate to strike first to pre-empt any chemical, biological or nuclear immanent threat. Hypothetically with a nuclear strike from either a Iranian nuclear device or Syrian chemical and/or biological devices would be catastrophic. As most of Israel's population & military complex is concentrated in the Tel-Aviv area, the Jewish population and most of the infrastructure would be decimated by at least 1/3 or 33%. Thus it is the region that would be ideal for a 1st strike. The guarantee of national survival is one of who will preemptively strike first?

World Nuclear Arsenals

ESTIMATED NUMBER OF WARHEADS

Sources: From the Natural Resource Defense Council published in the Bulletin of the Atomic Scientists. Other nations far exceed the count as the USA, Russia and China.

★ = Non Proliferation Treaty (NPT) Member

The estimated figures come from the Carnegie Endowment for International Peace. The Graph also depicts nearly all the top 10 Armies of the World ranked by Global Firepower.com. Of note, the major World Religions each now has the Technology to harness the Atom for Military Purposes: Christianity, Atheism, Judaism, Hinduism and Islam. All these pretty much encompasses the whole of Humanity on Earth of the Modern Era. About half the Countries listed are not party to the NPT which requires UN Inspection and Regular Monitoring.

NUCLEAR RADIUS

The Jericho III has a Range of (5000-7000 Miles). It gives Israel Nuclear Strike Capabilities within the entire Middle East, Africa, Europe, Asia and almost all parts of North America, as well as within parts of South America. A Launch from a Submarine off the Coast of any Land-Mass would arrive in Major World Cities within 2-5 Minutes from Launch.

ROAD TO DAMASCUS

A Launch from a Submarine off the Coast of Lebanon of an Israeli Jericho Nuclear Warhead would arrive in Damascus within 2 Minutes. Damascus proper has a Radius of 10 Miles which includes the Ancient Center and 'Straight Street' that is recorded in the Book of Acts. It would be estimated that around 1.7 Million People would be killed instantaneously. About 4.8 Million living within the Metropolitan Area would later Die. The Graphic below outlines the ramifications of a Mid-Size Nuclear Detonation.

200 Kiloton Nuclear Burst (MEDIUM SIZE BOMB)

ISRAELI ARMY (IDF) צבא ההגנה לישראל
 Total Land Weapons: 13,000+
 The IDF has served as Israel's Armed Forces in all the Major Wars and Military Operations. The number of Wars and Border Conflicts in which IDF has been involved History has made it one of the most Battle-Hardened Armies in the World.

ISRAELI AIR FORCE זרוע האוויר והחלל
 Total Aircraft: 2,000+
 Israel's Air Force is said to be the best in the World. Although Israel's Air Force lacks Strategic Bombers to deliver Nuclear Weapons over long range, its F-15I & F-16I Sufa fighters and now F-35's jets are capable of delivering Nuclear Weapons.

ISRAELI NAVY חיל הים הישראלי
 Total Navy Ships: 70+
 Israel is believed to have an Offshore Nuclear 2nd-Strike Capability, using Submarine Launched Nuclear-Capable Cruise Missiles. These Nuclear Devices can be launched from the Israeli Navy's Dolphin-Class Submarines.

MOSSAD המוסד
 This Agency is responsible for Intelligence, Covert Operations, Assassinations, Counter-Terrorism, bringing Jews to Israel from Countries where Aliyah is Forbidden and Protects Jewish Communities Worldwide. Mossad's former Motto was from Proverbs 24:6 in the Bible: 'For by Wise Guidance you can wage your War'. Others translate it to mean, 'By Deception, Thou Shalt Make War'. The Motto was later changed to Proverbs 11:14.

JERICHO NUCLEAR MISSILES

This is the Name given to Israel's Ballistic Missile Systems. The codename was taken from the Biblical City of Jericho.

JERICHO III: 2000S
 A Long Range Missile. It is speculated that it is an ICBM has a 3-Stage, Solid Propellant. It is possible for the Missile to be equipped with a single 750 Kiloton Nuclear Warhead or multiple Low-Yield Multiple Independent Targeted Reentry Vehicle (MIRV) warheads.

ISRAELI MILITARY INDUSTRIAL COMPLEX

The Military Forces of Israel are said to be the 'Best Trained' in the World, ranked 10th. Israel has gotten to the point that it is one of the leading Exporter of Weaponries to other Countries. Current overall Personnel is estimated to be at 3,511,190 with Active Military at 187,000. The Israel Defense Forces differs from most Armies in the World in many ways.

NUCLEAR NON-PROLIFERATION TREATY

Israel does not adhere to the Non-Proliferation Treaty as other Countries such as India and Pakistan. Its Nuclear Arsenal is an 'Open Secret'. The Israeli Government maintains a Policy of Deliberate Ambiguity. Much of what is known about Israel's Nuclear Program comes from Revelations in 1986 by Mordechai Vanunu, a Technician at the Negev Nuclear Research Center who served an 18-Year Prison Sentence as a result.
