

To Remove build-up of soil, black heel marks, or damaged floor finish from the surface of the floor.

# CLEANING FLOORS

## Supplies and Equipment

---

### EQUIPMENT

- “ Floor Hazard” Signs
- Low Spd Floor Machine or Auto Scrubber
- Standard Mopping Equipment
- Dust Mopping Tools
- Floor Machine or Scrubber

### CHEMICALS

- Straight-Up
- Fresh Water

### FLOOR PADS

- Blue Cleaner Pad
- Red Spray Buff Pad
- Flamingo Auto Scrub Pad

## Procedure

---

1. Prepare the area.
  - a) Place “Wet Floor Hazard” signs at entrance to area if they are not already there.
  - b) Move furniture. Work around heavy furniture or equipment that cannot be moved.
  - c) Dust mop or vacuum floor.
  - d) Set equipment in area where work will begin. In a room start in the farthest corner from entrance.
2. Follow instructions for Straight Up based on the type of cleaning you plan to do and pour into auto scrubber or standard mopping equipment. Use cool tap water.
3. Apply solution to the floor.
3. Machine scrub the floor using the selected pad on the Floor Machine or Autoscrubber, The auto scrubber will squeegee and vacuum the dirty solution. Otherwise it will need to be mopped up and removed manually.
5. If needed, apply a coat of finish. Finish will need to be applied only when worn down in heavy traffic areas. **Caution: Too much finish on floor will require stripping.**
6. After floor dries replace the furniture.
7. Clean and dry equipment. Store equipment and supplies.
8. Hose or flush the scrub pad with hot running water. Hang scrub pad on a wall in storage area to dry

## Accomplishment

---

After following this procedure the floor will be clean and free of soil and heavy dirt deposits and have a bright, clean appearance.
