- White .040 aluminum exterior sheets
- Tandem 3500# axles

Bumper Pull Horse Trailer Model 9407

FEATURE

FUNCTION

BENEFIT

All-Aluminum Construction

Featherlites are made with an all-aluminum frame and skin.

With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow.

Uni-Body Design

All components of the Featherlite trailer from side posts to roof rails to roof bows to cross members are engineered into a uni-body design.

The uni-body design makes the trailer stronger and more durable for the long haul.

White Lining

White lining above rubber standard.

White lining creates a brighter interior for horses during loading & travel, keeping them calmer. It also gives the trailer a cleaner, more eye-appealing interior.

Light 'Flo' Drop Down Feed Doors

Light 'Flo' drop down feed door with drop down bars for each is standard in select floorplans.

Featherlite's Light 'Flo' drop down feed doors allow up to 90% more airflow and light into the horse area, helping keep horses more calm and relaxed while loading and traveling. With their lowered handle, they are also easier to operate.

3/4" Rubber Floor Mats

3/4" rubber floor mats are standard in the horse area.

The thickness of Featherlite's floor mats give horses the greatest amount of comfort and stability during travel, reducing stress and potential injury to the horse.

Aerodynamic Nose

Featherlite bumper pulls feature standard aerodynamic noses.

Better aerodynamics during hauling creates a smoother tow.

For full array of floorplans, visit www.fthr.com.

*On most new 2014 models beginning on October 4, 2013 and thereafter. 10-year limited structural warranty on frame and superstructure. 3-year limited warranty on all other parts manufactured and installed by Featherlite. Some exclusions apply. See website or dealer for details. Trailer may be shown with options, including aluminum wheels, graphics and dual sides.
