DENTAL ASSISTANT

REPORTS TO: Dentist
FLSA CATEGORY: Full time, non-exempt
EEO CATEGORY: Technician

POSITION DESCRIPTION

The Dental Assistant performs a variety of patient care, office, and laboratory duties, including chair-side assistance as dentist examines and treats patients in a clinic setting. Duties include the preparation of restorative materials and medications; sterilization of dental instruments, taking and developing x-rays and performing other functions to assist the dentist.

ESSENTIAL FUNCTIONS

1. Greets patients, reviews medical and dental history, take blood pressure and prepares patient for treatment. Provides a comforting atmosphere to alleviate the patient’s anxiety or fears. May include giving basic explanation of procedures.
2. Assists dentist chair-side for restorative and/or surgical procedures by preparing, passing, and receiving appropriate dental instruments, restorative materials, amalgams, dental cements, and temporary sedative fillings in prescribed fashion. Essential Functions – Take vital statistics and health histories, instruct patients in proper dental health care, and fabricate and cement temporary crowns under general supervision of a dentist. Assistant must also take initial/diagnostic alginate impressions, place and expose x-rays using a digital sensor under indirect supervision of a general dentist. Assistant should be familiar with the following duties under direct supervision: remove sutures, assist the dentist in all operative and surgical procedures, place and remove rubber dams, place and remove matrices, remove excess cement from the coronal surfaces of the teeth, polish the surfaces of the teeth with a rubber cup and place pit fissure sealants.
3. Sterilize and disinfect instruments and equipment, prepare trays of instruments for dental procedures, and instruct patients on postoperative and general oral health care.
4. Sterilizes surfaces disinfected using autoclave, ultrasonic cleaner or chemical solutions. Practices required sterile techniques and ensures sanitary storage of supplies and equipment. Sends sterilized strips from autoclaves to companies for testing to ensure that autoclaves are working properly.
5. Keeps oral environment visible during dental procedures by use of high volume evacuation, air, water spray, or other devices.
6. Provides diagnostic information by exposing and developing radiographic studies as directed by dentist following radiation safety protocols.

7. Office duties include scheduling and confirming patient appointments, receiving patients, keeping and filing treatment records, ordering dental supplies and materials.

8. Participates in staff and department meetings.

9. Participates in professional development activities to keep current with trends and practices in the provision of dental services.

10. Maintains material safety data sheets (MSDS) and adheres to OSHA regulations and standards.

11. Maintains strict confidentiality of patient information.

12. Prepares treatment room for patient by following prescribed procedures and protocols.

13. Provides information to patients and employees by answering questions and requests.

14. Provides materials by selecting, mixing, and placing materials on instruments and in the patient's mouth.

15. Documents dental care services by charting in patient records.

16. Maintains safe and clean working environment by complying with procedures, rules, and regulations.

17. Protects patients and employees by adhering to infection-control policies and protocols.

18. Assists dentist/hygienist in a manner as to optimize the safety of the patient, hygienist, or dentist in the course of treatment.

19. Disposes of waste materials from dental procedures including dental sharps, extracted teeth, blood soaked gauze, cotton rolls, and other disposable supplies according to OSHA guidelines and infection control.

20. Ensures operation of dental equipment by completing preventive maintenance requirements; following manufacturer’s instructions; troubleshooting malfunctions; calling for repairs; maintaining equipment inventories; evaluating new equipment and techniques.

21. Maintains dental supplies inventory by checking stock to determine inventory level; anticipating needed supplies; placing and expediting orders for supplies; verifying receipt of supplies.

22. Conserves dental resources by using equipment and supplies as needed to accomplish job results.

23. Prepares charges for services provided and forwards them to the accounting office, change capture codes and perform other support tasks associated with the work.

24. Contributes to team effort by accomplishing related results as needed.

25. Coordinate patient care with LCCC to facilitate patients getting scheduled for cleaning.

26. Other duties as assigned.
