

**Holly Schupbach**

# Head Coach

## Middle School Girls

After supporting the MS team the last two years, we are happy to announce that Holly is taking our head coach position. We are excited to watch what she can teach our girls. As you can see from her resume below, she has lots of experience to pull from.

My rugby career began in high school, where I played for the Flyers. During my time with the team, I earned a position on the Wisco All Stars and was appointed Team Captain in my senior year. Additionally, I was selected to participate in the ARPTC High School Program. After my first year of college, I returned to the program and successfully tried out for the full-time roster, becoming the youngest player to receive a full contract that year.

I continued my rugby career at Wayne State College, where I became the starting flyhalf during my freshman year and maintained this position throughout my tenure with the team. In my freshman year, I was named "Best Defensive Player of the Year" at the National Championship. I played in three additional National Championships, leading my team to victory and securing the gold medal all four times.

Throughout my collegiate career, I also held several leadership positions within the team. Over the course of four years, I served as the Social Media Manager, Vice President, President, and Back Captain. In my senior year, after an injury prevented me from playing, I transitioned to Assistant Coach.
