Drama Company—Ms. DiPietro

The SOMS Drama Company will provide students with the opportunity to learn about acting, set design, and more. Students will participate in games, skits and team building activities that help to build the confidence and skills necessary to perform on stage. All participants will have the opportunity to show off their newly acquired skills in a performance! *Little Theater*

Coding I & II—Ms. Lawson

For both beginners AND continuing coders!! Girls Who Code is a national non-profit organization dedicated to closing the gender gap in technology. In the 1980s, 34% of computer science graduates were women, now in 2016 it is only 18%. This club focuses on technology projects that may be more of interest to girls - although boys are also free to join the club! Students will become part of a supportive sisterhood of peers and mentors who are using computer science to solve problems they care about. Learn the Core4 computer science concepts that form the basis for all computer programming languages, whether you want to build a mobile app, a website, or program a robot. Learning about functions, variables, conditionals, and loops in an environment that focuses on teamwork, confidence, and communication is what we are about. **BOYS ALSO WELCOME!** *Room 101*

Objectives are imagined by players, allowing them to create their own virtual world, mining materials and building tools. This game help with focus, flexibility, organization, planning and time management. *Library Computer Lab*

Wednesday

Students For Social Change!—Ms. Rivera

Arising from a social movement tradition, Youth Participatory Action Research ties a study of relevant issues affecting students' lives and constructive action to better the world at the community level. Students' needs and desires shape the issues studied and actions taken. Advisors guide this process as students work with educators, activists, local leaders, and concerned community members interested in the issues and actions students identified and developed strategies to address. By building a culture of solidarity, students' research and action can effect meaningful social change. If you want to make a difference in your community, Students for Social Change wants you! If you want more info regarding this club you can email Ms. Rivera (srivera@somsd.k12.nj.us) *Room 240*
