Top concern that you want your doctor to address at today's visit:

*A **dilated exam** is necessary to view the peripheral retina and is included in your comprehensive exam today at no additional charge. Dilation causes light sensitivity and blur for near work lasting up to 10 hours. It adds an additional 30 minutes to exam time. It can interfere with driving, work and school schedules. We offer an alternative at a nominal fee, which is not covered by your insurance. Instead of dilation today, we can do ultra-wide field photography that gives us a similar view as dilation (up to 200 degrees. This allows our doctors to ensure that you are not at risk for diabetes, retinal detachments, retinal cancers and other peripheral diseases. We will take images that can be reviewed with the Doctor today and stored in our database for future reference for an out of pocket fee of \$39.*

I have read the above I can be dilated today I request ultra-wide field photography

CONTACT LENS WEARERS: *I understand that contact lenses are a medical device regulated by the FDA. Contacts have a limited and controlled life-span. Like any medical device, proper care is necessary. I understand the necessity of follow-up care to monitor my health. I understand that the use of this medical device presents risk of possible infection and other complications. I understand that contact lenses do not take the place of glasses; they are an adjunct to glasses.*

I have read the above and I accept the responsibility for wearing contact lenses
