

SLOTTED ELECTRONIC SAFE

Depository safes are designed to provide immediate and secure storage for cash, and miscellaneous valuables. When the door is locked, deposits can be made via a deposit slot. Cash trays can easily fit inside the safe for storage. This safe is designed for small businesses or vehicles which need to store cash or receipts until the daily bank deposit. This safe is very popular for small retail stores or small volume fast food operations.

- Compact size (easily stores in closet)
- Easy to program & change your own combination in seconds
- Electronic security lock
- Manual override key function
- Solid steel construction for extra security
- 4 bolts provided to anchor the safe down
- 2 steel locking bolts, for added security
- 4AA batteries included to operate keypad
- External size: 13-3/4"W x 10"D x 10"H
- Internal size: 13-1/2"W x 9-1/2"D x 8-3/4"H

SB16

- Tungsten carbide "Butter Safe Bits" features a special tip design
- The tip uses a unique negative take angle and a shortened chisel edge that increases its effectiveness and reduces the tip failure
- May be used on safes and other materials that are difficult to drill such as concrete and stainless steel etc

| MFG # | SIZE | EZ # |
