~~~~~

## **Team Building Bottling Session**

Make your corporate meeting one to remember  
through education and working together

## **Add \$25/person**

Here at Brook Hollow Winery, we believe the key to success is a team that can work together in any given situation. There is no better way to achieve this than working together to put wine from a tank into a bottle. Arranging your group into teams, they will take turns in playing a key role in labeling, bottling, corking, and putting on shrink tops. Instruction will be led by Paul Ritter, owner/winemaker.

Have each member of your team take home a bottle of wine (of the winemaker's choice), complete with a custom label containing your corporations logo or unique graphic.
