

# DECKED

**WE JUST REIMAGINED THE TRUCK BED**

## WORK

Storing and accessing your stuff needs to be easy. After years of failing to find a good solution we finally did it ourselves and designed DECKED. We developed a system which raises the deck, allowing you to store your tools, hardware and other items securely, out of the way, and out of the weather while having full use of the rest of your truck bed. Your time is money and being more efficient and working with less effort allows you more time and energy off the clock to do what you really love.

## PLAY

It can take a hell of a lot of toys to have a lot of fun. With DECKED you can store your rods, guns, skis, boards, sleeping bags, camp gear, tailgate party "items" or whatever else you need. Whether it be at the lake, ocean, mountain or parking lot you can pretty much bring everything – including your girlfriend. Have a cold one on the top, lock your aspirin underneath, park your four-wheeler above and stash your pride below. It's up to you, fun hog. How are you going to use your DECKED?

## ***WHAT'S IN YOUR DRAWERS?***

**FITS MOST FULL SIZE TRUCKS  
(NO DRILL INSTALLATION)  
NOW AVAILABLE ON 8FT LONG**

PRICED AT  
**XSB—\$1150.00**
