### ***Old Business***

There was no new business

### ***New Business***

There was no new business

### ***Discussion***

As there was no old or new business the members entered into a discussion about a the possibility of a new web site for the Township for such things as fee schedules, ordinances and other information useful to residents to the township. Chris opined that with the state of web hosting software these days it may not be necessary to hire a consultant to build a web site. The only real costs should be the web building software and a web hosting site. Web design could be in-house using a subcommittee from the ACCT.

### **Actions: For the next meeting:**

Sally R agreed to investigate other township websites for content and format.

Bob S. agreed to bring examples of web site templates he was familiar with as a Web Master for another association.
