What is a Treeventure?

Glad you asked

It is the ability to use your imagination in ways that stimulate fun, learning, adventure and being helpful.

Treeventure

It is time for you to meet the tree with the  
biggest heart – Wi Willow

Hello everyone, I am Wi Willow

I am a tree.

I am not some ordinary tree.

I am a special tree.

I am going to show you all the neat things  
that I can do as a tree.

Today, I would like for you to meet a special friend of mine. His name is John, and he is a lumberjack. He is going to stop by and tell us all about what he does.

Do you know what a Lumberjack is? A lumberjack is a person who cuts down trees and split logs for wood to be used. Don't worry, I am not afraid. John is my friend.

Hello John,  
How are you  
doing  
today?

Hello Wi. It  
has been a  
busy day

Today, I got a late start on my work Wi. I found myself running to work area.

So, what  
kind of work  
did you do  
today?

Today, I  
needed to  
chop up some  
firewood.

I had to take some large logs and chopped them up to some smaller sizes.

Was it hard?

It was not hard,  
but I did sit-  
down to think  
about all that I  
needed to do.

Wi, I like to sit down and think about all that I am will be doing. I want to make sure I do it right and safely.

That is interesting.  
So how do you  
chop the logs for  
firewood

Well, let me  
tell you.

The first thing I do is I get my Ax and stretch my arms, so I am nice and loose to do the job.

Then I chop each log to the correct size that is needed.

Taking my time to make sure each log is done correctly. I also make sure that I am doing it safely.

Then I gather all the wood so I can put it a nice pile to be picked up by others to use.

Once I have put it in a pile then I am done with that job. I then start on another log to make another pile..

John, thanks  
for stopping by  
and sharing  
with us.

Anytime Wi.

Thank you, boys and girls, for going on this Treeventure with me. Stay tuned for more treeventures Wi Willow.

## **Author's Notes**

**Imagination is such a beautiful gift we can allow a child to have with no limits. The process of curiosity is a natural stage of development for children. They are natural-born scientist and investigators. It is our responsibility to foster and nourish those innate skills in our kids. So, go grab those pots and pans or a box and start using those beautiful, colorful, and creative imaginations!**
