Re: Student Drop off/pickup area

Lately our Student Drop off/pickup area has been congested. The purpose of our Student Drop off/pickup area is to allow parents to pull up and allow their children to get out of the vehicle and enter the building safely. If you intend on walking your child into the school please utilize one of our parking spaces either at the front of the school or in the elementary parking lot in and walk your child in. This will aid in keeping our drop off/pickup area moving and avoid any unnecessary blockage.

Thank you for your cooperation. We all share the responsibility to keep our children safe!
