

The Royal Crown Futurity

Welcome to the “Royal Crown.” A breeders’ incentive owned by stallion owners. This incentive is designed to benefit the barrel horse industry by giving back a substantial amount to stallion owners and breeders. Stallion owners will have the potential to make money by paying into the Royal Crown. Stallion and breeder money will be split 50/50 to give mare owners more of an incentive to breed to Royal Crown stallions. Attached is an example payout with 300 entries. The Royal Crown is owned 100% by the stallion owners who will all have a say. It will be run by a board of 7 selected members; all issues and new ideas can be brought to the board to be discussed and voted on. The board of members will be selected in the future. This idea was presented by Matt Zancanella (Co-owner of Lion Share of Fame) to pay out the first one-million-dollar futurity to contestants on top of a substantial payout for stallion and breeders. The Royal Crown will be a futurity that is 100 % payback with no annual nomination fees or hidden fees, with all entry fee money being paid out. It will be a 2D futurity with 0.75 second splits. The Royal Crown will begin in 2020, location and date TBD by the board.

- ❖ There will be 100 stallion spots sold at \$12,500 a share per year
 - Each spot will count as one share in the Royal Crown
 - Each share is owned by whoever bought that spot they can do whatever they choose with that spot. They can sell it, sell their stallion with the share or they can sell just their stallion and keep the share to put a new stallion into.
 - A spot will only open up on the waiting list if someone defaults on payment or gives up their position.

- Each shareowner will be able to bring new ideas and issues to the board.
 - If a stud pulls out after being in for 1 year all foals bred that year up to 5-year old's will be eligible to run come futurity age. If a colt by that stud wins at the futurity after the stud pulls out, the stallion owner will not be eligible for the stallion money. That money will be added to the stallion payout.
 - If a stallion dies or becomes sterile the owner has the option to replace that stallion with a new one, the deceased stallion's foals will still be eligible for the Royal Crown; the owner will also be eligible to win the stallion/breeder money from the foals of the deceased stallion.
 - There will be a one time \$500 deposit that must accompany the stallion entry form to secure your spot. You have the option to mail a check or send via paypal.
 - There will be 4 payments of \$3,000 due to make up the \$12,500
 - Payment due dates:
 - December, 1 2019
 - February, 1 2020
 - April, 1 2020
 - June, 1 2020
 - First Payment is due December, 1 2019. Second payment is due February 1, 2020. Third payment is due April 1, 2020. The fourth payment is due June, 1, 2020.
 - There will be a 15-day grace period for each payment. If you miss a payment, you will lose your spot and all money paid in. The next stallion on the waiting list gets the opportunity to buy that spot for the full \$12,500. The waiting list will be public so you will know where you're at. The new stallion owner will need to pay payments and payment amounts on the dates.
-
- ❖ All money will be transparent to shareholders; shareholders will always be able to see where all of the money is spent and payed out.
 - ❖ There will be no nomination fees what-so-ever in the Royal Crown; any horses of futurity age by a Royal Crown Stallion will be eligible to run in the futurity. Foal owners will not need to pay foals in each year.

- ❖ The only money that will be withheld from the stallion owners' money is advertising and administrative costs.
 - \$100,000 will be held out for advertising; this will enable us to provide professional advertisement for each stallion.
 - \$75,000 will be withheld for administration costs.
 - Along with the Royal Crown Futurity, there will be a \$50,000 added open 4D open to the world. Horses do not need to be by a Royal Crown Stallion.
 - There will also be a \$25,000 added youth side pot open to any youth competitor ages 16 and under. Horses do not need to be by a Royal Crown Stallion.
 - The open and youth have been added to draw a crowd for the event and horse sale. We want people who are not involved in the Royal Crown to be drawn to the event. This helps show the benefits of breeding to a Royal Crown Stallion and buying their offspring.

- ❖ In addition, there will be a horse sale for the stallion owners and breeders that have bred to a Royal Crown Stallion
 - Each stallion owner will be allowed to bring 3 horses to sell
 - Each breeder will be allowed to bring 3 horses to sell
 - There will be a maximum of 500 horses allowed in the sale
 - There will be no catalog fee
 - There will be a \$300 no sale fee applied to all horses not sold
 - There will be 8% commission charged on all horses sold
 - There will also be a sale graduate incentive for all horses purchased from the horse sale. They will be eligible to run in a major incentive side pot.
 - To be eligible for the sale graduate incentive horses must be purchased at the sale. Horses that are not sold will be ineligible

Royal Crown Futurity Payout

**(This payout is approximate only-
the official payout will come out on a later date)**

(based on 300 entries)

Entry Fees will be \$1,500

Entry Fees are due 60 days prior to the event

There will be a \$500 late

This payout is paying 20 holes in each division

The 2D is .75 Split

Rules and By-Laws

- All amendments and rule proposals or changes that are brought to the board will be voted on by the board and only passed with a 2/3 vote

- **The Royal Crown reserves the right to refuse any stallion for any reason and will not be held responsible for this action**
- **If a stallion position becomes available the first stallion on the waiting list will have first option and will have two weeks to decide if they want the position**
- **If a stallion dies while in the Royal Crown they can opt to stay if they would like with a deceased stallion and breeding with frozen semen if frozen is not available, the owner has the option to put a new stallion of theirs in otherwise they can sell their position or give their position back to the Royal Crown and next on the waiting list will have first chance**
- **If a stallion dies or becomes sterile and the owner wants to replace that stallion with a new one, the deceased stallion's foals will all still be eligible for the Royal Crown and that stallion owner will also be eligible to win the stallion/breeder money from the foals of the deceased stallion.**
- **If a stallion dies while on the waiting list the owner of the stallion can replace that stallion with a new stallion and not lose the position**
- **If a stallion is sold while in the Royal Crown or on the waiting list the owner of the position has the option to put a new stallion in that position**
- **The maximum number of stallions allowed in the Royal Crown is 100 and will remain at 100; it will never change**
- **If a board member position becomes available shareholders can nominate new members and the current board will vote on the new member**
- **All foals by Royal Crown stallions are eligible for the one-million-dollar futurity, there is no nomination fee**
