

Class- 2
Chapter-8(wind)
General science

2. Switch on the table fan.
3. Observe what happens to the pieces of paper.

Now I know :

- | | |
|-----------------------|------------------------------------|
| (1) Wind has speed. | (2) Wind has a definite direction. |
| (3) Wind has a force. | (4) Wind is useful to us. |

WORKSHEET

Let's answer :

Q. 1. Choose the correct word(s) and fill in the blanks :

- (1) On a windy day, wind blows very fast .
(very fast/gently)
- (2) Fast moving wind causes storm .
(breeze/storm)
- (3) Roofs of houses are blown away by stormy wind.
(Pukka houses/Roofs of houses)
- (4) Windmill is used to pump water.
(Windmill/Weathercock)
- (5) Wind has a definite direction .
(shape/direction)

Q. 2. Write any two uses of windmill.

- (1) Pump Water
- (2) Grind grain

Q. 3. What happens when the wind is blowing hard ?

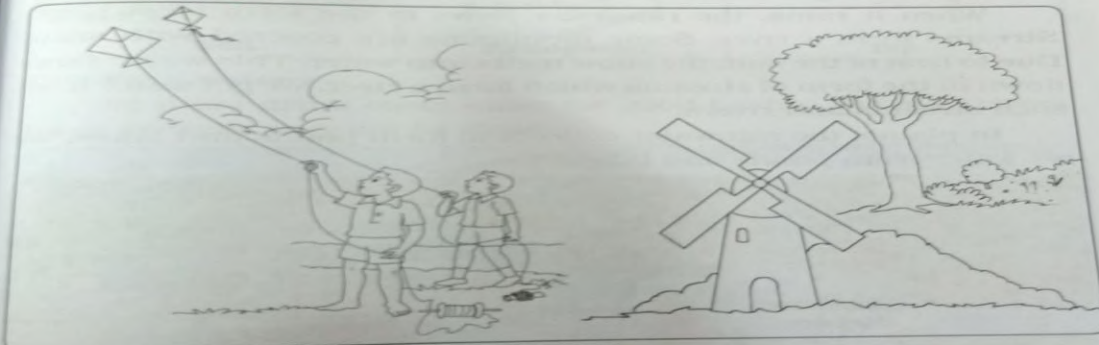

This fast moving can cause a storm.
Strong wind also causes tidal
waves in the sea.

Q. 4. Match the columns :

Column 'A'	Column 'B'
(1) Slow moving air	(a) Pumps water
(2) Wind makes	(b) Storm
(3) Wind with speed and force	(c) Breeze
(4) Windmill	(d) Boats sail

Let's have fun :

- Colour the picture :

Let's do this activity :

- Fly a paper kite and notice the direction of the wind.
