(c) FAILURE TO TIMELY CONSOLIDATE ORDERS.—If the Secretary fails to implement the consolidation required under subsection (a)(1) within the time period required under subsection (b)(2)(B) (plus any additional period provided under subsection (b)(3)), the Secretary may not assess or collect assessments from milk producers or handlers under such section 8c for marketing order administration and services provided under such section after the end of

(2) LOAN RATE.—The national average quota loan rate for quota peanuts shall be \$610 per ton.

(3) INSPECTION, HANDLING, OR STORAGE.—The loan amount may not be reduced by the Secretary by any deductions for inspection, handling, or storage.

(4) LOCATION AND OTHER FACTORS.—The Secretary may make adjustments in the loan rate for quota peanuts for location of peanuts and such other factors as are authorized by section 162.

(5) OFFERS FROM HANDLERS.—If a producer markets a quota peanut crop, meeting quality requirements for domestic edible use, through the marketing association loan for two consecutive marketing years and the Secretary determines that a handler provided the producer with a written offer, upon delivery, for

the purchase of the quota peanut crops at a price equal to or in excess of the quota support price, the producer shall be ineligible for quota price support for the next marketing year. The Secretary shall establish the method by which a producer may appeal a determination under this paragraph regarding ineligibility for quota price support.

(b) ADDITIONAL PEANUTS.—

(1) IN GENERAL.—Subject to paragraph (2), the Secretary shall make nonrecourse loans available to producers of additional peanuts at such rates as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets.

(2) LIMITATION.—The Secretary shall establish the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of the peanuts.

(3) ANNOUNCEMENT.—The Secretary shall announce the loan rate for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the loan rate is being determined.

(B) ADMINISTRATIVE AND SUPERVISORY ACTIVITIES.—An area marketing association shall be used in administrative and supervisory activities relating to loans and marketing activities under this section and section 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359a).

110 STAT. 924

PUBLIC LAW 104-127—APR. 4, 1996

(C) TYPES OF PEANUTS.—Bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing the pools.

(D) NET GAINS.—Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of the following:

(i) QUOTA PEANUTS.—For quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool.

(ii) ADDITIONAL PEANUTS.—For additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts.

(d) LOSSES.—Losses in quota area pools shall be covered using the following sources in the following order of priority:

(3) OFFSET WITHIN AREA.—Further losses in an area quota pool shall be offset by any gains or profits from additional peanuts (other than separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) owned or controlled by the Commodity Credit Corporation in that area and sold for domestic edible use, in accordance with regulations issued by the Secretary. This paragraph shall not apply to profits or gains from a farm with 1 acre or less of peanut production.

(4) FIRST USE OF MARKETING ASSESSMENTS.—The Secretary shall use funds collected under subsection (g) (except funds attributable to handlers) to offset further losses in area quota pools. The Secretary shall transfer to the Treasury those funds collected under subsection (g) and available for use under this paragraph that the Secretary determines are not required to cover losses in area quota pools.

(5) **CROSS COMPLIANCE.**—Further losses in area quota pools, other than losses incurred as a result of transfers from additional loan pools to quota loan pools under section 358–1(b)(8) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358–1(b)(8)), shall be offset by any gains or profits from quota pools in other production areas (other than separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) in such manner as the Secretary shall by regulation prescribe. Regulations.

(6) **OFFSET GENERALLY.**—If losses in an area quota pool have not been entirely offset under the preceding paragraphs, further losses shall be offset by any gains or profits from additional peanuts (other than separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) owned or controlled by the Commodity Credit Corporation and sold for domestic edible use, in accordance with regulations issued by the Secretary. This paragraph shall not apply to profits or gains from a farm with 1 acre or less of peanut production.

(7) **SECOND USE OF MARKETING ASSESSMENTS.**—The Secretary shall use funds collected under subsection (g) and attributable to handlers to offset further losses in area quota pools. The Secretary shall transfer to the Treasury those funds collected under subsection (g) and available for use under this paragraph that the Secretary determines are not required to cover losses in area quota pools.

(8) **INCREASED ASSESSMENTS.**—If use of the authorities provided in the preceding paragraphs is not sufficient to cover losses in an area quota pool, the Secretary shall increase the marketing assessment for producers established under subsection (g) by such an amount as the Secretary considers necessary to cover the losses. The increased assessment shall apply only to quota peanuts in the production area covered by the pool. Amounts collected under subsection (g) as a result of the increased assessment shall be retained by the Secretary to cover losses in that pool.

(e) **DISAPPROVAL OF QUOTAS.**—Notwithstanding any other provision of law, no loan for quota peanuts may be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358–1(d) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358–1(d)).

(f) **QUALITY IMPROVEMENT.**—

(1) **IN GENERAL.**—With respect to peanuts under loan, the Secretary shall—

(A) promote the crushing of peanuts at a greater risk of deterioration before peanuts of a lesser risk of deterioration;

(B) ensure that all Commodity Credit Corporation inventories of peanuts sold for domestic edible use must be shown to have been officially inspected by licensed Department inspectors both as farmer stock and shelled or cleaned in-shell peanuts;

(C) continue to endeavor to operate the peanut program so as to improve the quality of domestic peanuts and ensure the coordination of activities under the Peanut Administrative Committee established under Marketing Agreement

No. 146, regulating the quality of domestically produced peanuts (under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937); and

(D) ensure that any changes made in the peanut program as a result of this subsection requiring additional production or handling at the farm level shall be reflected as an upward adjustment in the Department loan schedule.

However, any such lease of poundage quota may be entered into in the fall or after the normal planting season—

110 STAT. 930

PUBLIC LAW 104-127—APR. 4, 1996

“(ii) under such terms and conditions as the Secretary may by regulation prescribe.

“In the case of a fall transfer or a transfer after the normal planting season by a cash lessee, the landowner shall not be required to sign the transfer authorization. A fall transfer or a transfer after the normal planting season may be made not later than 72 hours after the peanuts that are the subject of the transfer are inspected and graded.

“(B) PERCENTAGE LIMITATIONS ON SPRING TRANSFERS.—Spring transfers under subparagraph (A) by sale or lease of a quota for farms in a county to any owner or operator of a farm outside the county within the same State shall not exceed the applicable percentage specified in this subparagraph of the quotas of all farms in the originating county (as of January 1, 1996) for the crop year in which the transfer is made, plus the total amount of quotas eligible for transfer from the originating county in the preceding crop year that were not transferred in that year or that were transferred through an expired lease. (B) by adding at the end the following:

“(4) TRANSFERS IN COUNTIES WITH SMALL QUOTAS.—Notwithstanding paragraphs (1) and (2), in the case of any county in a State for which the poundage quota allocated to the county was less than 100,000 pounds for the preceding year’s crop, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in the county to a farm in another county in the same State.”.

The Secretary shall carry out this section through the Consolidated Farm Service Agency (in this section referred to as the “Agency”).

(2) ELIGIBLE CROPS.—

(A) IN GENERAL.—In this section, the term “eligible crop” means each commercial crop or other agricultural commodity (except livestock)—

(ii) that is produced for food or fiber.

(B) CROPS SPECIFICALLY INCLUDED.—The term “eligible crop” shall include floricultural, ornamental nursery, and Christmas tree crops, turfgrass sod, seed crops, aquaculture (including ornamental fish), and industrial crops.

(3) CAUSE OF LOSS.—To qualify for assistance under this section, the losses of the noninsured commodity shall be due to drought, flood, or other natural disaster, as determined by the Secretary.

(b) APPLICATION FOR NONINSURED CROP DISASTER ASSISTANCE.—

(1) TIMELY APPLICATION.—To be eligible for assistance under this section, a producer shall submit an application for noninsured crop disaster assistance at a local office of the Department. The application shall be in such form, contain such information, and be submitted at such time as the Secretary may require.

(2) RECORDS.—A producer shall provide records, as required by the Secretary, of crop acreage, acreage yields, and production.

(3) ACREAGE REPORTS.—A producer shall provide reports on acreage planted or prevented from being planted, as required by the Secretary, by the designated acreage reporting date for the crop and location as established by the Secretary.

(c) LOSS REQUIREMENTS.—

(1) REQUIRED AREA LOSS.—A producer of an eligible crop shall not receive noninsured crop disaster assistance unless the average yield for that crop, or an equivalent measure in the event yield data are not available, in an area falls below 65 percent of the expected area yield, as established by the Secretary.

(2) PREVENTED PLANTING.—Subject to paragraph (1), the Secretary shall make a prevented planting noninsured crop disaster assistance payment if the producer is prevented from planting more than 35 percent of the acreage intended for the eligible crop because of drought, flood, or other natural disaster, as determined by the Secretary.

(3) REDUCED YIELDS.—Subject to paragraph (1), the Secretary shall make a reduced yield noninsured crop disaster assistance payment to a producer if the total quantity of the eligible crop that the producer is able to harvest on any farm is, because of drought, flood, or other natural disaster as determined by the Secretary, less than 50 percent of the expected individual yield for the crop, as determined by the Secretary, factored for the interest of the producer for the crop.

(d) PAYMENT.—The Secretary shall make available to a producer eligible for noninsured assistance under this section a payment computed by multiplying—

(1) the quantity that is less than 50 percent of the established yield for the crop; by

(2)(A) in the case of each of the 1996 through 1998 crop years, 60 percent of the average market price for the crop (or any comparable coverage determined by the Secretary); or

(B) in the case of each of the 1999 and subsequent crop years, 55 percent of the average market price for the crop (or any comparable coverage determined by the Secretary); by

(3) a payment rate for the type of crop (as determined by the Secretary) that—

(A) in the case of a crop that is produced with a significant and variable harvesting expense, reflects the decreasing cost incurred in the production cycle for the crop that is—

(i) harvested;

(ii) planted but not harvested; and

(iii) prevented from being planted because of drought, flood, or other natural disaster (as determined by the Secretary); and

(B) in the case of a crop that is not produced with a significant and variable harvesting expense, as determined by the Secretary.

(e) YIELD DETERMINATIONS.—

(1) ESTABLISHMENT.—The Secretary shall establish farm yields for purposes of providing noninsured crop disaster assistance under this section.

(2) ACTUAL PRODUCTION HISTORY.—The Secretary shall determine yield coverage using the actual production history of the producer over a period of not less than the 4 previous consecutive crop years and not more than 10 consecutive crop years. Subject to paragraph (3), the yield for the year in which noninsured crop disaster assistance is sought shall be equal to the average of the actual production history of the producer during the period considered.

(3) ASSIGNMENT OF YIELD.—If a producer does not submit adequate documentation of production history to determine a crop yield under paragraph (2), the Secretary shall assign to the producer a yield equal to not less than 65 percent of

the transitional yield of the producer (adjusted to reflect actual production reflected in the records acceptable to the Secretary for continuous years), as specified in regulations issued by the Secretary based on production history requirements.

(4) PROHIBITION ON ASSIGNED YIELDS IN CERTAIN COUNTIES.—

(A) IN GENERAL.—

(i) DOCUMENTATION.—If sufficient data are available to demonstrate that the acreage of a crop in a county for the crop year has increased by more than 100 percent over any year in the preceding 7 crop years or, if data are not available, if the acreage of the crop in the county has increased significantly from the previous crop years, a producer must provide such detailed documentation of production costs, acres planted, and yield for the crop year for which benefits are being claimed as is required by the Secretary. If the Secretary determines that the documentation provided is not sufficient, the Secretary may require documenting proof that the crop, had the crop been harvested, could have been marketed at a reasonable price.

(ii) PROHIBITION.—Except as provided in subparagraph (B), a producer who produces a crop on a farm located in a county described in clause (i) may not obtain an assigned yield.

(B) EXCEPTION.—A crop or a producer shall not be subject to this subsection if—

(i) the planted acreage of the producer for the crop has been inspected by a third party acceptable to the Secretary; or

(ii)(I) the County Executive Director and the State Executive Director recommend an exemption from the requirement to the Administrator of the Agency; and

(II) the Administrator approves the recommendation.

(5) LIMITATION ON RECEIPT OF SUBSEQUENT ASSIGNED YIELD.—A producer who receives an assigned yield for the current year of a natural disaster because required production records were not submitted to the local office of the Department shall not be eligible for an assigned yield for the year of the next natural disaster unless the required production records of the previous 1 or more years (as applicable) are provided to the local office.

(6) YIELD VARIATIONS DUE TO DIFFERENT FARMING PRACTICES.—The Secretary shall ensure that noninsured crop disaster assistance accurately reflects significant yield variations due to different farming practices, such as between irrigated and nonirrigated acreage.

(f) CONTRACT PAYMENTS.—A producer who has received a guaranteed payment for production, as opposed to delivery, of a crop pursuant to a contract shall have the production of the producer adjusted upward by the amount of the production equal to the amount of the contract payment received.

(g) USE OF COMMODITY CREDIT CORPORATION.—The Secretary may use the funds of the Commodity Credit Corporation to carry out this section.

110 STAT. 950

(1) DEFINITIONS.—In this subsection:

(A) PERSON.—The term “person” has the meaning provided the term in regulations issued by the Secretary. The regulations shall conform, to the extent practicable, to the regulations defining the term “person” issued under section 1001 of the Food Security Act of 1985 (7 U.S.C. 1308).

(2) PAYMENT LIMITATION.—The total amount of payments that a person shall be entitled to receive annually under this section may not exceed \$100,000.

(3) LIMITATION ON MULTIPLE BENEFITS FOR SAME LOSS.—If a producer who is eligible to receive benefits under this section is also eligible to receive assistance for the same loss under any other program administered by the Secretary, the producer shall be required to elect whether to receive benefits under this section or under the other program, but not both.

(4) INCOME LIMITATION.—A person who has qualifying gross revenues in excess of the amount specified in section 2266(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1421 note) (as in effect on November 28, 1990) during the taxable year (as determined by the Secretary) shall not be eligible to receive any noninsured assistance payment under this section.

“(B) developing common rules for the application of sanitary and phytosanitary restrictions; that should result in increased exports of United States agricultural products, jobs, and income growth in the United States;

“(A) allowing the European Union to continue unreasonable levels of spending on export subsidies; and

“(8) the United States should aggressively use these opportunities to achieve more open and fair opportunities for trade in agricultural products.

“(b) GOALS OF THE UNITED STATES IN AGRICULTURAL TRADE NEGOTIATIONS.—The objectives of the United States with respect to future negotiations on agricultural trade include—

“(1) increasing opportunities for United States exports of agricultural products by eliminating tariff and nontariff barriers to trade;

“(2) leveling the playing field for United States producers of agricultural products by limiting per unit domestic production supports to levels that are no greater than those available in the United States;

“(3) ending the practice of export dumping by eliminating all trade distorting export subsidies and disciplining state trading entities so that they do not (except in cases of bona fide food aid) sell in foreign markets at prices below domestic market prices or prices below their full costs of acquiring and delivering agricultural products to the foreign markets; and

“(4) encouraging government policies that avoid price-depressing surpluses.”.

SEC. 386. CONSERVATION OF PRIVATE GRAZING LAND.

16 USC 2005b.

(a) FINDINGS.—Congress finds that—

(1) private grazing land constitutes nearly ½ of the non-Federal land of the United States and is basic to the environmental, social, and economic stability of rural communities;

(2) private grazing land contains a complex set of interactions among soil, water, air, plants, and animals;

(3) grazing land constitutes the single largest watershed cover type in the United States and contributes significantly to the quality and quantity of water available for all of the many uses of the land;

(4) private grazing land constitutes the most extensive wildlife habitat in the United States;

(5) private grazing land can provide opportunities for improved nutrient management from land application of animal manures and other by-product nutrient resources;

(6) owners and managers of private grazing land need to continue to recognize conservation problems when the problems arise and receive sound technical assistance to improve or conserve grazing land resources to meet ecological and economic demands;

(7) new science and technology must continually be made available in a practical manner so owners and managers of

110 STAT. 1018

PUBLIC LAW 104–127—APR. 4, 1996

private grazing land may make informed decisions concerning vital grazing land resources;

(8) agencies of the Department with private grazing land responsibilities are the agencies that have the expertise and experience to provide technical assistance, education, and research to owners and managers of private grazing land for the long-term productivity and ecological health of grazing land;

(9) although competing demands on private grazing land resources are greater than ever before, assistance to private owners and managers of private grazing land is currently limited and does not meet the demand and basic need for adequately sustaining or enhancing the private grazing land resources; and

(10) private grazing land can be enhanced to provide many benefits to all citizens of the United States through voluntary cooperation among owners and managers of the land, local conservation districts, and the agencies of the Department responsible for providing assistance to owners and managers of land and to conservation districts.

(b) PURPOSE.—It is the purpose of this section to authorize the Secretary to provide a coordinated technical, educational, and related assistance program to conserve and enhance private grazing land resources and provide related benefits to all citizens of the United States by—

(1) establishing a coordinated and cooperative Federal, State, and local grazing conservation program for management of private grazing land;

(2) strengthening technical, educational, and related assistance programs that provide assistance to owners and managers of private grazing land;

(3) conserving and improving wildlife habitat on private grazing land;

(4) conserving and improving fish habitat and aquatic systems through grazing land conservation treatment;

(5) protecting and improving water quality;

(6) improving the dependability and consistency of water supplies;

(7) identifying and managing weed, noxious weed, and brush encroachment problems on private grazing land; and

(8) integrating conservation planning and management decisions by owners and managers of private grazing land, on a voluntary basis.

(c) DEFINITIONS.—In this section:

(1) DEPARTMENT.—The term “Department” means the Department of Agriculture.

(2) PRIVATE GRAZING LAND.—The term “private grazing land” means private, State-owned, tribally-owned, and any other non-federally owned rangeland, pastureland, grazed forest land, and hay land.

(3) SECRETARY.—The term “Secretary” means the Secretary of Agriculture.

(d) PRIVATE GRAZING LAND CONSERVATION ASSISTANCE.—

(1) ASSISTANCE TO GRAZING LANDOWNERS AND OTHERS.—Subject to the availability of appropriations for this section, the Secretary shall establish a voluntary program to provide technical, educational, and related assistance to owners and managers of private grazing land and public agencies, through

PUBLIC LAW 104–127—APR. 4, 1996

110 STAT. 1019

local conservation districts, to enable the landowners, managers, and public agencies to voluntarily carry out activities that are consistent with this section, including—

(A) maintaining and improving private grazing land and the multiple values and uses that depend on private grazing land;

(B) implementing grazing land management technologies;

(C) managing resources on private grazing land, including—

(i) planning, managing, and treating private grazing land resources;

(ii) ensuring the long-term sustainability of private grazing land resources;

(iii) harvesting, processing, and marketing private grazing land resources; and

(iv) identifying and managing weed, noxious weed, and brush encroachment problems;

(D) protecting and improving the quality and quantity of water yields from private grazing land;

(E) maintaining and improving wildlife and fish habitat on private grazing land;

(F) enhancing recreational opportunities on private grazing land;

(G) maintaining and improving the aesthetic character of private grazing lands; and

(H) identifying the opportunities and encouraging the diversification of private grazing land enterprises.

(2) PROGRAM ELEMENTS.—

(A) FUNDING.—If funding is provided to carry out this section, it shall be provided through a specific line-item in the annual appropriations for the Natural Resources Conservation Service.

(B) TECHNICAL ASSISTANCE AND EDUCATION.—Personnel of the Department trained in pasture and range management shall be made available under the program to deliver and coordinate technical assistance and education to owners and managers of private grazing land, at the request of the owners and managers.

(e) GRAZING TECHNICAL ASSISTANCE SELF-HELP.—

(1) FINDINGS.—Congress finds that—

(A) there is a severe lack of technical assistance for farmers and ranchers who graze livestock;

(B) Federal budgetary constraints preclude any significant expansion, and may force a reduction of, current levels of technical support; and

(C) farmers and ranchers have a history of cooperatively working together to address common needs in the promotion of their products and in the drainage of wet areas through drainage districts.

(2) ESTABLISHMENT OF GRAZING DEMONSTRATION.—In accordance with paragraph (3), the Secretary may establish 2 grazing management demonstration districts at the recommendation of the grazing lands conservation initiative steering committee.

(3) PROCEDURE.—

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) \$20,000,000 for fiscal year 1996;

(2) \$40,000,000 for fiscal year 1997; and

The term includes—

(1) the marketing promotion provisions under section 8c(6)(I) of the Agricultural Adjustment Act (7 U.S.C. 608c(6)(I)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937;

(b) FINDINGS.—Congress finds the following:

(1) It is in the national public interest and vital to the welfare of the agricultural economy of the United States to maintain and expand existing markets and develop new markets and uses for agricultural commodities through industry-funded, Government-supervised, generic commodity promotion programs established under commodity promotion laws.

(2) These generic commodity promotion programs, funded by the agricultural producers or processors who most directly reap the benefits of the programs and supervised by the Secretary of Agriculture, provide a unique opportunity for producers and processors to inform consumers about their products.

(3) The central congressional purpose underlying each commodity promotion law has always been to maintain and expand markets for the agricultural commodity covered by the law, rather than to maintain or expand the share of those markets held by any individual producer or processor.

(4) The commodity promotion laws were neither designed nor intended to prohibit or restrict, and the promotion programs established and funded pursuant to these laws do not prohibit or restrict, individual advertising or promotion of the covered commodities by any producer, processor, or group of producers or processors.

(5) It has never been the intent of Congress for the generic commodity promotion programs established and funded by the commodity promotion laws to replace the individual advertising and promotion efforts of producers or processors.

(6) An individual producer's or processor's own advertising initiatives are typically designed to increase the share of the market held by that producer or processor rather than to increase or expand the overall size of the market.

(7) In contrast, a generic commodity promotion program is intended and designed to maintain or increase the overall demand for the agricultural commodity covered by the program

PUBLIC LAW 104–127—APR. 4, 1996

110 STAT. 1031

and increase the size of the market for that commodity, often by utilizing promotion methods and techniques that individual producers and processors typically are unable, or have no incentive, to employ.

(8) The commodity promotion laws establish promotion programs that operate as “self-help” mechanisms for producers and processors to fund generic promotions for covered commodities which, under the required supervision and oversight of the Secretary of Agriculture—

(A) further specific national governmental goals, as established by Congress; and

(B) produce nonideological and commercial communication the purpose of which is to further the governmental policy and objective of maintaining and expanding the markets for the covered commodities.

(9) While some commodity promotion laws grant a producer or processor the option of crediting individual advertising conducted by the producer or processor for all or a portion of the producer’s or processor’s marketing promotion assessments, all promotion programs established under the commodity promotion laws, both those programs that permit credit for individual advertising and those programs that do not contain such provisions, are very narrowly tailored to fulfill the congressional purposes of the commodity promotion laws without impairing or infringing the legal or constitutional rights of any individual producer or processor.

(10) These generic commodity promotion programs are of particular benefit to small producers who often lack the resources or market power to advertise on their own and who are otherwise often unable to benefit from the economies of scale available in promotion and advertising.

(11) Periodic independent evaluation of the effectiveness of these generic commodity promotion programs will assist Congress and the Secretary of Agriculture in ensuring that the objectives of the programs are met.

(c) INDEPENDENT EVALUATION OF PROMOTION PROGRAM EFFECTIVENESS.—Except as otherwise provided by law, each commodity board established under the supervision and oversight of the Secretary of Agriculture pursuant to a commodity promotion law shall, not less often than every 5 years, authorize and fund, from funds otherwise available to the board, an independent evaluation of the effectiveness of the generic commodity promotion programs and other programs conducted by the board pursuant to a commodity promotion law. The board shall submit to the Secretary, and make available to the public, the results of each periodic independent evaluation conducted under this subsection.

Public
information.

(d) ADMINISTRATIVE COSTS.—The Secretary shall annually provide to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate information on administrative expenses on programs established under commodity promotion laws.

Commodity
Promotion,
Research, and
Information Act
of 1996.

Subtitle B—Issuance of Orders for Promotion, Research, and Information Activities Regarding Agricultural Commodities

7 USC 7401 note. **SEC. 511. SHORT TITLE.**

This subtitle may be cited as the “Commodity Promotion, Research, and Information Act of 1996”.

7 USC 7411. **SEC. 512. FINDINGS AND PURPOSE.**

(a) FINDINGS.—Congress finds the following:

(1) The production of agricultural commodities plays a significant role in the economy of the United States. Thousands of producers in the United States are involved in the production of agricultural commodities, and such commodities are consumed by millions of people throughout the United States and foreign countries.

(2) Agricultural commodities must be of high quality, readily available, handled properly, and marketed efficiently to ensure that consumers have an adequate supply.

(3) The maintenance and expansion of existing markets and the development of new markets for agricultural commodities through generic commodity promotion, research, and information programs are vital to the welfare of persons engaged in the production, marketing, and consumption of such commodities, as well as to the general economy of the United States.

(4) Generic promotion, research, and information activities for agricultural commodities play a unique role in advancing the demand for such commodities, since such activities increase the total market for a product to the benefit of consumers and all producers. These generic activities complement branded advertising initiatives, which are aimed at increasing the market share of individual competitors, and are of particular benefit to small producers who lack the resources or market power to advertise on their own. These generic activities do not impede the branded advertising efforts of individual firms, but instead increase general market demand for an agricultural commodity using methods that individual companies do not have the incentive to employ.

(5) Generic promotion, research, and information activities for agricultural commodities, paid by the producers and others in the industry who reap the benefits of such activities, provide a unique opportunity for producers to inform consumers about a particular agricultural commodity.

(6) It is important to ensure that generic promotion, research, and information activities for agricultural commodities be carried out in an effective and coordinated manner designed to strengthen the position of the commodities in the marketplace and to maintain and expand their markets and uses. Independent evaluation of the effectiveness of the generic promotion activities of these programs will assist the Secretary of Agriculture and Congress in ensuring that these objectives are met.

PUBLIC LAW 104–127—APR. 4, 1996

110 STAT. 1033

(7) The cooperative development, financing, and implementation of a coordinated national program of research, promotion, and information regarding agricultural commodities are necessary to maintain and expand existing markets and to develop new markets for these commodities.

(1) popcorn is an important food that is a valuable part of the human diet;

(2) the production and processing of popcorn plays a significant role in the economy of the United States in that popcorn is processed by several popcorn processors, distributed through wholesale and retail outlets, and consumed by millions of people throughout the United States and foreign countries;

(3) popcorn must be of high quality, readily available, handled properly, and marketed efficiently to ensure that the benefits of popcorn are available to the people of the United States;

PUBLIC LAW 104–127—APR. 4, 1996

110 STAT. 1075

(2) establish a nationally coordinated program for popcorn promotion, research, consumer information, and industry information.

“(a) **FINDINGS.**—Congress finds the following:

“(1) Although medical researchers in recent years have demonstrated that there are several naturally occurring compounds in many vegetables and fruits that can aid in the prevention of certain forms of cancer, coronary heart disease, stroke, and atherosclerosis, there has been almost no research conducted to enhance these compounds in food plants by modern breeding and molecular genetic methods.

“(2) By linking the appropriate medical and agricultural research scientists in a highly-focused, targeted research program, it should be possible to develop new varieties of vegetables and fruits that would provide greater prevention of diet-related diseases that are a major cause of death in the United States.

“(b) **PILOT RESEARCH PROGRAM.**—The Secretary shall conduct, through the Cooperative State Research, Education, and Extension Service, a pilot research program to link major cancer and heart and other circulatory disease research efforts with agricultural research efforts to identify compounds in vegetables and fruits that prevent these diseases. Using information derived from such combined research efforts, the Secretary shall assist in the development of new varieties of vegetables and fruits having enhanced therapeutic properties for disease prevention.

“(c) **AGREEMENTS.**—The Secretary shall carry out the pilot program through agreements entered into with land-grant colleges or universities, other universities, State agricultural experiment stations, the State cooperative extension services, nonprofit organizations with demonstrable expertise, or Federal or State governmental entities. The Secretary shall enter into the agreements on a competitive basis.

“(5) improve the housing and management of animals to improve the well-being of livestock production species;

“(b) FINDINGS.—Congress finds that—

“(1) the total animal health and disease research and extension efforts of State colleges and universities and of the Federal Government would be more effective if there were close coordination between the efforts; and

“(2) colleges and universities having accredited schools or colleges of veterinary medicine and State agricultural experiment stations that conduct animal health and disease research are especially vital in training research workers in animal health and related disciplines.”.
