Edde Sailor (Why I Love Sunrider)

My name is Edde Sailer and I've been eating the Sunrider® foods for over 20 years. You name the product and I have eaten it—I love each and every one of them. I have maintained excellent health during this time but mainly have sustained energy and stamina.

I was the walking coach for the Leukemia Society for several years, race walking six marathons myself, not including all the miles in between training my walkers for their races. I ate VitaShakes and Quinary® and lots of Fortune Delight® and SunBars. SunBreeze® Oil also helped a great deal with tight muscles.

Being in the sun, wind, rain, etc., my skin was protected by the fabulous array of skin care products in the Kandesn® line as well as the superior Oi-Lin® line. And let's not forget the sunscreen! I feel blessed to be able to share these products with others, because I know the history and dedication of the Chens to make superior products. I can't say enough about the integrity of the company or the efficacy of the products. Enjoy!
