

# Riviera Utilities

Know what's below.  
Call before you dig.

## CALL BEFORE YOU DIG NOTICE TO CONTRACTORS

To All Excavators:

The Department of Transportation requires Riviera Utilities to have a damage prevention program. The purpose of the program is to prevent damage to facilities by excavation activities. Excavation activities as defined in the regulation include excavation, blasting, boring, tunneling, backfilling, the removal of above-ground structures by either explosive or mechanical means, and other earth-moving operations. Damaging utilities during excavation can also result in damage to equipment and injury to personnel.

Riviera Utilities subscribes to the Alabama 811 call center for requests to locate facilities. STATE LAW requires that a 48-hour notification be given prior to excavation, except in the case of an emergency. **YOU CAN NOW CALL 811 FROM ANYWHERE AND REACH THE APPROPRIATE ONE CALL CENTER.** In the event that the 811 Call Center is not called and damage occurs, Riviera's policy is to bill for reimbursement of all associated repair costs including the cost of lost commodity.

If you plan any type of excavation, please call 48 hours in advance. Upon your notification, we will locate our facilities for you before you start excavating. Our facilities will be marked with color-coded flags or spray paint. The American Public Works Association Nationwide Uniform Color-code System will be utilized as follows:

<b>Yellow</b>	-	<b>Natural Gas</b>
<b>Blue</b>	-	<b>Water</b>
<b>Red</b>	-	<b>Power</b>
<b>Orange</b>	-	<b>Communication (CATV)</b>
<b>Green</b>	-	<b>Sewer</b>
<b>White</b>	-	<b>Proposed Construction</b>

**If you plan to excavate, please call the 811 Call Center at 1-800-292-8525, or 811.  
This is a free service to you and is required by Alabama State Law.**

We request that your proposed excavations be marked with white flags or paint.

OUR SERVICE AREA INCLUDES VARIOUS PORTIONS OF BALDWIN COUNTY.

Thank You,

Riviera Utilities
