

DR. TINA HARRIS

GED PROGRAM

Mesquite Social Services began The *Dr. Tina Harris GED Program* to provide our clients free, online prep courses and serve as an official GED testing site. Through our Hand UP! Self-Sufficiency Initiative, we are expanding our GED program to include workshops on career readiness, financial literacy, and computer basics. The Dr. Tina Harris GED Program is the cornerstone to this initiative since it gives clients the essential foundation on which to base their careers. To find out more about our workshops, email us at ged@mesquitesocialservices.org.

Here are the basic steps of our **GED PREP** program:

1. Attend an orientation - ged@mesquitesocialservices.org to schedule.
2. Email us at ged@mesquitesocialservices.org (include your full name) to let us know you are ready to begin taking the online courses.
3. Please wait 2-3 business days to receive your email with your login information.
4. You will receive 2 emails, one from ged@mesquitesocialservices.org with instructions on how to log in. Another from Aztec with your username and password. Note: The Aztec email may get sent to your spam folder.
5. Take the pre-test to let the system determine where you need to focus on the most.
6. Go through the lessons. Lessons with an asterisk (star) next to it indicates you need to focus on that lesson more. However, we recommend clients go through each lesson for a full review.
7. Take post-test. A score of 70% and above means it's highly likely you will pass the GED exams.
8. **Schedule your test at ged.com**

Please note: we are a small staff who wear many different hats. Please be patient when waiting for your log-in information.

THANK YOU,
GED SPONSORS!
