

About 4 months prior, I was diagnosed with vertigo and treated with pills that sometimes helped. I could barely function without feeling dizzy. My wife called and made the appointment with BalanceMD. The only words I can think of as to this treatment is witchcraft, voodoo, unbelievable magic!!! It worked, 2 visits and no more dizziness.

I can not say enough about the professional treatment I was given. I thank them daily for the magic given to me. I can now once again move without falling over!
