

What is **A.S.K.**?

So what is A.S.K. in “What If? Just A.S.K.”. The **A.S.K.** is the methodology developed by Breanne E. Brooks and Rodney D. Brooks and it is geared toward helping our youth build the tools in their lives that can be an asset in building their careers and achieving their dreams. The simple yet profound process allows individuals to begin **A**sking the right questions, **S**eeking the answers and utilizing resources. Most of all it encourages people to accurately **K**now, assess and believe in their abilities. This valuable tool/methodology teaches self-confidence and **critical thinking skills** to young people who are looking for reliable, practical guidance as they step out in the wider world.

Today we have some of the smartest and creative Youth that has ever been known to mankind. From science and technology to entertainment and literature, our young people have blazed trails that had not been explored before. The purpose of the What If? Why The Tool Kit

In my over 30 plus years in Human Resources and Operation and the various industries which includes Utilities, Chemicals, Retail, Poultry, Aviation, Motors and Pulp & Paper with some of the Largest Organizations in the world, I have noticed that from the entry level to the executive level all individuals are not truly prepared to embark on their career aspirations. My daughter and I (Breanne E. Brooks and Rodney D. Brooks) have decided to focus on the youths ranging from the ages of 14 to 22. We believe preparation with this group can make a positive impact on our society. The statement was once made “that you all (parents and adults) always tell us that we can be what we want to be but very rarely do you tell us how”. It is not our goal with the tool kit to tell you how but to engage your creative thinking skills to help you figure out how to achieve your dreams and goals.
