- ✓ no equipment costs
- ✓ no installation costs
- ✓ no service costs
- ✓ No additional space required

If this how your washer fluid looks to your customers, we can help you

This is the image and Keep Fill service your customers expect....

What our customers say

“Clean Shield under-promised and over-delivered the system and savings in all of our locations” -Typical customer response of the nearly 600 installed in the Midwest

The patented Keep Fill system automatically fills all windshield stations with product from a bulk tank. It is a self-maintaining system. It will delight your customers by making sure that they always find your stations full and clean and save you money.

Typical installations will save 28% over the current costs and at times much more!

Amazing Blue is the exclusive distributor of the patented system for Michigan. We are a family that has been in the C-store business like you for over 50 years. We have the experience and understand what you need. Call us today and let us show you how much we can save you. Be one of the first in Michigan to start realizing the savings and added customer service.

Call today to ensure we are able to install before the Busy Winter Season!!
