

OUR 2014 SCHOLARSHIP AWARD RECIPIENT

daddy's little girl
scholarship foundation

My future is in my hands, my goals are in my hands. It's up to me to paint the road ahead. My future goals include graduation from Tiffin University, being successful so that I may provide for my family, and taking my success and using it to help change the world.

Being here at Tiffin, I have come to realize that the road to success is not easy but, I can do anything through Christ who strengthen me. I am here not only to receive my education, but also to better myself. The tougher the road gets, the closer I become to God. I know that I can succeed here with him on my side. I do not wish to limit myself to one thing in life. I refuse to limit my relationship with God, my family, or limit my education. I want to be able to involve myself in all the things I love. Tiffin

University will be the biggest key, besides myself, God, and my family to making my dreams come true and reaching my goals. With this being said, while here at Tiffin I am working my absolute hardest to pass every class strong with high As and Bs. I am working hard to make sure that not one piece of knowledge goes to waste.

Receiving my degree from Tiffin will not only allow me to reach one goal, but will help me get closer to making all my dreams come true. Tiffin is the key to my future, it will help me to fulfill my dreams. My future goals begin with graduating from Tiffin University and receiving my Bachelor's degree in Marketing. I plan to finish my college career strong. My high school career, and my diploma from Twinsburg are two key components of many to help me push and strive towards my future goals. My degree from Tiffin will be vital to my future. It will determine whether or not I receive a job. Whether or not I graduate is up to me, and I will graduate from Tiffin University! When I graduate, I intend on getting a job that is not only beneficial to me, but also to this world. I want a job that will make a difference, not just provide checks. I want to be a role model for my sister, my younger cousins, and someday my own children. I want a job that my mother will brag about, because of its positive effects. I want to amount to something in this world. Through my relationship with God, my family and friends around me, my head in the books, and my determination to excel I can do anything. I can do this.

My future plans are my life. I will reach my goals, my plans will become a reality. Tiffin is my destiny, it will affect my life in the most positive ways. Tiffin will be the biggest factor in making my dreams come true. The road to success begins at Tiffin University, where my mother received her Bachelor's degree. Going to college will help me to live up to the high expectations I need to exceed. While in college, to make my family proud will be my motivation, to see them smile as they did at my high school graduation. I deserve to win the scholarship because I absolutely need the scholarship, and I will work my hardest to be sure not one penny of my

scholarship is wasted. I need this scholarship so that I may be successful and fortunate enough to give scholarships of my own, and send my sister to college one day. I want the chance to help provide for my family and live up to their expectations. I need the chance to provide a helping hand in changing the world. I want to better this world through marketing, and my own influence. I need Daddy's Little Girls scholarship to become the woman that girls around the world look up to. I want to be a role model for the generations to follow, and my own children someday. When I am successful, the main people I want to influence in this world are little girls. To show them the road to success, and what success really looks like. God will guide me down the path that I call my own, he will ensure that every dream of mine come true. I will be sure as his little girl to follow my path as he leads and to work for every blessing he sends. I have one father figure in my life and that is God, my father who are in heaven. Daddy's Little Girl, I will always be. Thank you for your time and the opportunity.
