

Glen Melder is the founder and Chief Executive Officer of Sensaras LLC. Glen's extensive industry knowledge was earned by being "hands on" at the beginning of his 28-year career when he worked at Sensall, then a well-established ultrasonic liquid level company based in Hauppauge NY. When that company moved from Long Island, Glen joined Cosense shortly after its inception, which was then located in Hauppauge NY, and helped grow that company to be one of the leaders in ultrasonic level sensing devices. After the Cosense business relocated out of state, he decided to open Sensaras in Hauppauge, NY.

Sensaras has hired a number of experienced and skilled employees. Together with Glen, Sensaras' talented team boasts more than 60 years of combined experience in ultrasonic sensing technology. In its first year of operations, Sensaras is proud to offer over 10 separate sensor product lines. Sensaras' innovative designs and manufacturing processes have generated significant cost savings which it gladly passes on to the customer while maintaining impressive quality, ingenuity, integrity and impeccable customer service that has become synonymous with the Sensaras name.

Glen's business ideology has become the primary guiding principle of Sensaras: "Customer Service, Quality and Fair Price." The company's motto is simple: "Revolutionary Sensing."
