

A 2-way, reflective sign displaying your physical address number allows emergency response vehicles to find your home in the dark and fog.

A sign and post can be ordered from the Nestucca Rural Fire Protection District by going to: <http://www.nrfpd.com/burn.php> and filling out the Sign Order Form. The cost is only \$35, a bargain when you consider the need for fast emergency police, medical or fire response for your family or visitors.

If you live on Pacific Overlook Drive, you should place the sign at a 90 degree angle to the road so that it can be read by drivers approaching from either direction. Keep foliage cleared around the sign for visibility.
