5. I personally would like to thank Christopher's business owners, the good citizens of Christopher, surrounding Fire Departments, Governors Pritzner and Representative Severin, for all their support and prayers for Kody Vanfossan.

I have never seen a community come together with love and support as this good city has done.

Christopher is an amazing community second to none.

As Mayor and Kody Vanfossan's grandfather, no words can express my gratitude to everyone. God bless this community and the State of Illinois.

6. In the coming days, I will conduct an internal investigation on the Market Street fire, cannot let this happen to another fire fighter.

**Building for the future!**
