11:15-11:20 Dismissal 1:55-2:00

We sing our good bye song, line up to go find the children's authorized pick-up person

We try to keep the schedule as consistent as possible. The rehearsing and routine of procedures and activities in the classroom can be critical for developing and a feeling of security and trust for the children. At times we will change a procedure if we feel it is not working. We usually do this more at the beginning of the year. Please bear with us while we are in the learning process!!

The children learn by doing activities that are hands-on and with manipulative's that are in large group, small group, or individual work settings. They learn school procedures, routines and behavioral expectations. They learn socialization skills in the classroom and at gym or outside. All this plays an important part in a successful transition from preschool to kindergarten.

At Angel Academy we provide a loving and caring atmosphere which encourages your children to develop their own unique gifts and talents. We will help the children learn important skills such as getting along with others, taking care of one self, sharing, listening, and following directions. Our day will include hands-on activities, dramatic play, music, art, and creative movement.

If you are looking to enroll your little angel into preschool, we would like to take this opportunity to invite you to visit our preschool.
