

L-ROD INSTA-BERM™ SECONDARY CONTAINMENT BERM WITH L-ROD POCKETS

Guard against toxic spillage with the Insta-Berm (L-Rod), a fully collapsible, rapidly deployable berm made from chemical-resistant materials. Constructed from industrial-strength fabric, the Insta-Berm is an easy-to-install environmental safeguard that allows companies to meet today's strict guidelines.

Durable and reliable, use the Insta-Berm (L-Rod) virtually anywhere for secondary containment or storage of toxic materials. Meets EPA regulation 40CFR112.7 and Environment Canada Storage Tank Systems for Petroleum Products and Allied Petroleum Products Regulations (SOR/2008-197). Certified to CAN/ULC-S668-12.

L-ROD DESIGN FEATURES

- L-shaped rods hold up the walls, yet fold down easily for vehicle entry and exit
- Fully collapsible for compact storage and easy transport
- Instant deployment without any tools
- Wide range of standard sizes and custom sizes available
- Can be easily cleaned, folded and stored for reuse
- Appropriate for secondary containment of waste water, petroleum products and various chemicals

BERM OPTIONS

- Drain fitting – this fitting can be opened to let out accumulated rainwater or connected to a hose to pump out spilled product
- Over-fill protection – allows precipitation to be drained from the Insta-Berm while containing spilled chemicals
- RainDrain™ – removes hydrocarbons and additives from captured water through gravity drainage
- High-wind stakes and eyelet patches – anchors the berm to the ground

FABRIC OPTIONS

- Chem-Shield™ – Chemical-resistant fabric
- Arctic-Shield™ – Certified to CAN/ULC-S668-12, chemical and fire resistant fabric for temperatures to -50 degrees Fahrenheit / -45.6 degrees Celsius (Arctic-Shield fabric is not suitable for acids)

CERTIFIED TO CAN/ULC-S668-12

INSTA-BERM (L-ROD)™

The customizable Insta-Berm (L-Rod) comes in dozens of standard sizes as well as two fabric options to choose from.

The optional RainDrain filter ensures your berm has enough capacity to protect the environment in the event of a spill.

The Insta-Berm (L-Rod) is certified to CAN/ULC-S668-12 Class IP and Class IIP and is suitable for secondary containment of flammable liquids and combustible liquids in both above ground (exposed) and (buried) non-exposed secondary containment applications.
