"THE SMART
HABIT" and
CHEW XYLITOL
GUM DAILY

Discovered by Nobel Prize winner Emil Fischer around 1900, Xylitol began to be used in foods since the 1960's and has been used widely as a popular sweetener in diabetic diets (minimal effect – glycemic index of 7 – slow, steady release of energy balances blood sugar and insulin levels). More than 48 studies worldwide have been conducted on Xylitol (carried out partially under the auspice of the World Health Organization (WHO)).

Xylitol is a sugar that does not promote the development of dental caries, unlike frequent between meal consumption of other foods high in sugars and starches that can promote dental caries.

The Benefits of Xylitol – The Ingredient:

- Has an active anti-caries/cariostatic effect by reducing plaque forming bacteria. This is a result of lowering the plaque index (reduces the adhesivity at the macro molecular level and reducing the acidogenicity of plaque with Xylitol's (neutral 7.0 PH levels). As part of the process, Xylitol stimulates the production of saliva; thereby helping to control dental plaque and mutans streptococci.
- Inhibits plaque formation, [plaque is a biofilm that allows bacteria to adhere to tooth enamel], as well as other pathogenic organisms that can ultimately result in periodontal disease.

The Use of Xylitol in Children – Under Age 12:

Can have particularly long term positive effect on oral well being.

- Children's acceptance & daily compliance of chewing of Xylitol is excellent due to its ease-of-use and great taste.

Positive oral health effects that have been reported are a remineralizing effect on tooth enamel (depending on daily usage), acting as a periodontal prophylaxis and can have a compounding effect on the benefits of fluoride.

* For more information on studies and benefits of Xylitol call: Hager Worldwide at (800) 328-2335

- Studies have shown xylitol blocks the transmission of mutans streptococci from mother to child.

Studies have shown that with regular use of Xylitol chewing gum there is a long-term effect that may reduce the risk of dental caries.

The Benefits of Xylitol – In Geriatrics:

- Holds and keeps the aging related salivary mutans at a steady level.
- Eases xerostomia caused by the intake of medications which causes a reduction of saliva in the elderly population.

Xylitol's – Low Caloric Value:

- A better alternative for keeping weight down vs. traditional high calorie sugar based chewing gums.
- Xylitol is an excellent low calorie sugar substitute (up to 40% less calories) due to the fact that the human body utilizes the chemical slowly and incompletely; therefore, reducing its caloric value.

How to Use – miradent Xylitol Chewing Gum:

Use immediately after eating and clear the mouth with swishing water.

Adults: 3 to 5 times/day x 2 tablets

Children: 3 to 5 times/day x 1 tablet

Chew miradent Xylitol Chewing Gum until the taste disappears. The use should be spread out over the day (10 gm to 40 gm).

Mirawhite® oxygen

Gentle Whitening without Carbamide Peroxide

- Acts pH-neutral and is *free of peroxide*
- The alternative for patients with sensitive teeth gingival problems and numerous fillings
- Apply twice a day for 14 days
- Tooth whitening by up to five shades
- Pen with 1.8 ml gel for an easy brush on application

630132

Mirawhite oxygen

1

Gel Chamber

The gel contains an enamel-friendly agent – no leakage, no drying-out

Dosage

Exact dosage of the gel by a slight turning of the pen end tip

Application

Brush allows a direct application even in interdental spaces

10 Minutes

Apply even and thin layer of Mirawhite oxygen twice a day (8 to 10 minutes and then rinse) for up to 14 days.

Tong-Clin Set

Tongue Cleaning Set

- For professional removal of tongue coating and elimination of bad breath
- Tongue cleaning gel and convenient tongue brush & scraper set

The miradent tongue cleaner with its moulded finger grip handle has extremely short bristles that work very effectively. Both scraper and bristles lift the coatings off the tongue and remove them, while the round-shaped scraper eliminates any gag reflex.

- We recommend the use of miradent Tong-Clin Gel with it's cleansing effect in combination with the miradent tongue scaper
- A small amount of the gel is perfect. Rub the gel carefully onto the surface of the tongue with the brush and let it work for a soothing, refreshing and lasting effect.
