

## WrightCo Environmental Solutions, Inc. In-Service Education Series

Big Germs Little People "Health and Sanitation in the Preschool Environment"	Important topics such as professional environmental health management, disease transmission, cross contamination, safety, when to clean, what to clean, what you should use to clean with and how to clean, team cleaning concepts as well as regulatory issues are discussed.	Administrators, Family Service, Teachers, Nutrition Staff, Custodians, and Volunteers
Integrating Environmental Health & Safety Policy and Procedures into School Readiness	The participants will be able to identify health and safety issues that affect the five major areas of child development. We will discuss national health and safety performance standards, The Head Start & School Readiness Acts, Head Start Performance Standards, and identify practical health and safety solutions for implementation.	Administrators, Family Service, Teachers, Nutrition Staff, Custodians, and Volunteers
OSHA "Chemical Right To Know"	The in-service program covers how the OSHA "Chemical Right to Know" standards apply to your personnel, the chemical "right to know" plan, how to reduce risk of exposure, material safety data sheets, and work practice controls, and personal protective equipment.	Administrators, Teachers, Nutrition Staff, Custodians, and Volunteers
OSHA Universal Precautions "Bloodborne Pathogens and Bodily Fluids"	The in-service program covers what a bloodborne pathogen is, how the OSHA bloodborne pathogens standards apply to your child care personnel, the exposure control plan, how to reduce risk of exposure, work practice controls, engineering controls, personal protective equipment, housekeeping and hepatitis B vaccination series and post exposure evaluation and follow-up.	Administrators, Teachers, Nutrition Staff, Custodians, and Volunteers
Emergency Preparedness and Response Planning for Early Education and Care.	This in-service makes a case for and provides advice on how to create, maintain and execute a comprehensive emergency management program. We will discuss the four phases of preparedness in detail. Individuals will come away with a clear understanding of what their role and responsibilities are and how to be effective in the face of catastrophic natural or man-made disasters.	Administrators, Family Service, Teachers, Nutrition Staff, Custodians, and Volunteers
Asthma and Allergies in the pre-school environment	This in-service centers on facts regarding asthma and allergens in your child care center. We'll provide community based statistics and describe what asthma and how to mitigate it in the preschool environment. Included in the discussion will be sick building syndrome and multiple chemical sensitivity and the cause and effect relationship and impact on individual with asthma and allergies.	Family Service Staff, Teachers, nutrition staff, Volunteers, Custodians and Parents

<p>Health and Sanitation in the Infant &amp; Toddler Environment</p>	<p>This in-service centers on the infant and toddler environment. Practical topics such as team cleaning, communicable disease transmission, cross contamination, when to clean, what to clean, what products you should use to clean with, as well as how to clean are discussed (from carpet cleaning to toy sanitizing). Federal and State compliance and as well as life safety issues concepts are also introduced.</p>	<p>Administrators, Family Service, Teachers, Custodians, and Volunteers</p>
<p>Infectious Diseases and Control in the Preschool Environment</p>	<p>We will discuss the nature of health systems, the Department of Health and Mental Hygiene, Head Start Performance Standards, American Academy of Pediatrics, National Health and Safety Performance Standards and the program staff's responsibilities. Included are discussions on policies and procedures, children and staff immunizations, infectious disease transmission, as well as practical ways to mitigate transmission through proper sanitation practices.</p>	<p>Administrators, Family Service, Teachers, Nutrition Staff, Custodians, and Volunteers</p>
