[Re: An American Life Line](#)

Dear President Putin,

My name is Paul Macchia, I participated in the Political California Governor's race this year, however I am more interested and focused on running for U.S. President 2020. Like many U.S. Citizens in the United States, I don't believe in the U.S. Government and U.S. Democratic Party's narrative of Russian interference in our elections; instead I am more concerned with the interference originating internally with-in our own country. I carbon copied you in a letter to former FBI Director, Robert Muller regarding the September 11, 2001 attacks here on U.S. soil and I am requesting that if you feel confident enough to add any additional information or add even your own opinion about the attacks, your insight might be of value.

Demonizing Russia by our media, Democratic Party and U.S. Deep State Government is un-ethical. Former Soviet Union Leader, Mikhail Gorbachev took a calculated risk with former U.S. President, Ronald Regan for peace during the collapse of the Soviet Union; in my opinion, regrettably the United States did not deliver the support which should have been provided and instead took advantage of the situation by exploiting the dismantling of the U.S.S.R in numerous ways including what I suspect was a 240 billion dollar loan through a 10 year war-chest bond which was scheduled to expire September 12, 2001. I believe that was one of the factors involved in the September 11, 2001 terrorist attack; I believe the owner of those war-bonds preferred to stay anonymous.

Former CIA Director and former U.S. President, George H. Bush mentioned the "New World Order" philosophy while in office and included his White House Administration with the involvement of the U.N. Agenda 21 Program along with numerous other U.N. programs which unfortunately compromises the freedoms of the U.S. Constitution. I am concerned that the people of the United States are going to lose their freedom, their lives and the U.S. Constitution through another false flag attack such as the September 11, 2001 terrorist incident and either Russia, China or another country will be targeted and blamed as responsible or accountable. I would like to discuss that with you in this letter.

If it's possible, I hope to avert another false flag attack like the German, 1933 Reichstag Fire incident or U.S. September 11, 2001 incident from re-occurring; I believe these occurrences were created in order to

justify and facilitate a specific course of action. As U.S. President if elected I plan to implement a completely different strategy than the current U.S. policy of both foreign and domestic affairs.

I commend you on your discipline and composure regarding not being lured into a military confrontation with the United States or NATO. I believe that was the intent and has been the intent by the U.S. Military and the U.S. Deep State Government which I'm sure you are already aware of. Had a military conflict occurred during Obama's presidency, Martial Law would have suspended our U.S. Constitution and Obama would have most probably manipulated another presidential term. I want to ask you some questions and hopefully get a response from you to help me and other U.S. citizens like me regarding putting information that is not easily available to the public in perspective.

From my recollection, prior to the U.S. elections, Russia was conducting massive civil defense drills involving 40 million people nationwide during a time of escalated tensions with the United States over Syria and the possible escalation of a nuclear confrontation. President Putin,

- 1.) Did U.S. Presidential Candidate, Donald Trump and his National Security Advisor, Michael Flynn along with staff members attempt to reach out to you in order to diffuse the escalation from a possible confrontation turning into an actual nuclear conflict?
- 2.) Is it possible to please provide the details of the Obama Administration and Hillary Clinton's illegal Uranium 1 Deal which involved Russia?
- 3.) Can you please elaborate on the "Fracking" or earthquake device/machine which Russia sold to the United States during the George W. Bush, White House Administration and can you please discuss as to what manner was the device/machine's intentional purpose and optimal performance?

I apologize in advance of my nativity, I understand that history is sometimes written by the victor of wars and some of my inquiries may not be historically accurate by historian standards. Regardless, I am going to give you my impression of historical events and the rational supporting it; I hope by obtaining as much information as possible from you, it will assist in the presidential decisions made in the White House whether I serve or not.

I believe the majority of most United States American Citizens do not want war with Russia or any other country, however the truth is we as a country do not know war on U.S. soil, not from a foreign source. The only large scale wars Americans truly are aware of on U.S. soil is the Independence War of 1776 and the Civil War of 1861, every other war that I can recollect was abroad. I do not think that Americans believe a war of major catastrophic consequences can happen here and if it does, the transition to recovery will probably have a major loss of American lives and freedoms.

World War 3

Infact, I don't think we as a people are prepared for a war, I do believe that our government is though and I am certain that the recovery plan does not have the best interest in mind for the American people or our U.S. Constitution. It is highly likely that our government is hoping and pushing for war in order to implement a multi-objective domestic and foreign goal consisting of:

- 1.) Structuring the United States under new guidelines through Martial Law using FEMA, Department of Homeland Security and Executive Orders to abolish the U.S. Constitution, eradicate Labor Unions and exterminate a large portion of Americans, specifically gun owners, Republicans and those of public opinion who are willing to contest against government over-reach.
- 2.) Officially announce the convergence of NAFTA (North American Free Trade Agreement) into a one continent country identified as the North American Union.
- 3.) Remove paper and metal currencies into credit RFID technology.
- 4.) Implement the U.N. Agenda 21 Program, U.N. Wildland Conservation Program and U.N. Gun Treaty.

- 5.) Attack and destabilize foreign governments.
- 6.) Avoid returning domestic and foreign gold to respective governments or citizens.
- 7.) Justifying the nullification of debt to China or any other country.
- 8.) Confiscate new land while promoting human depopulation and citizen disarmament.

September 11, 2001 Terrorist Attacks here in the United States, I believe was accomplished internally by our own government and numerous entities which benefited by profit, power and control through fear of terror. As the European Union attempts to solidify its bonds with other neighboring countries, I highly suspect the concept of "Open Borders" is to:

- 1.) Dilute the ethnic population of each country while dissolving cultural heritage by removing a sense of ethnic community and comradeship.
- 2.) Condition the population into allowing government over-reach during times of distress and chaos.
- 3.) Use ethnic and cultural blending as justification for humanitarian assistance and aid while still allowing government to exercise national security tactics due to possible terrorist threats.
- 4.) Unify a new banking system or currency system.
- 5.) Eradicate Labor Unions.
- 6.) Permanently remove Alt Right Groups from positions of influence and power.
- 7.) Depopulate citizens, remove independence and restructure national borders.

The irony is the U.S. Government's foreign policy is responsible for this destabilization as it seems to be the same policy or a similar one that we are facing here in the United States. The Federal Reserve is paying our Democratic Party "Sanctuary Funding" to prioritize and provide preferential treatment of foreigners over our own citizens which unfortunately will require harsh consequences if I am elected President. I believe the Federal Reserve is using "Sanctuary Funding" to pay the Democratic Party, greedy union leaders and the wealthy elite to promote poverty to replace the current American population as a form of Eugenics. Between Artificial Intelligence (AI) and advance industrial technologies, I don't foresee enough available jobs and employment opportunities in the future. This observation creates the following questions:

- 1.) Are you aware of the term "Deep State Government"?
- 2.) Is it possible that our banking system controls the White House Presidency, the Pentagon, Congress and the Senate?
- 3.) If so, is it possible that the Queen of Great Britain controls the Federal Reserve and the IMF?
- 4.) Could Great Britain be controlling Israel, Saudi Arabia and the United States by manipulating them as the aggressors while the Queen portrays playing a supportive role with other countries with-in the European Union or NATO in order to avoid direct confrontation, accountability and accusations of aggression?
- 5.) How much oil do you think Saudi Arabia has left and do you think that it is near depletion?
- 6.) Is there a possibility that Saudi Arabia is trying to confiscate Iran's oil?

It seems that the United States, United Nations, Great Britain are following a strategy called the U.N. Agenda 21 Program, U.N. Wildland Conservation Program and the U.N. Gun Treaty which in summary depopulates humanity, justifies land confiscation and citizen disarmament. My interpretation of this philosophy reflects life is expendable and replaceable, however land is not and therefore removing freedoms and people who expect and demand equality and respect are more problematic than those who are more docile and willing to comply for less freedom only to reside in the comforts of a modern aged world of technological advancements.

- 1.) President Putin, does that sound accurate so far or do you have something to add or change?

Evolution

In the eyes of a “New World Order” the Russian Federation is the only real threat which delays global domination for those who want to conquer the world through a global government. I believe it is the Far Left, Democratic Parties which are willing to sacrifice everything and anything in order to stay in power where as Far Right organizations are more loyal to nationalism, patriotism and retaining cultural values.

Because the Federal Reserve has no gold backing, I suspect that funding and grants are being paid to Far Left Democratic Parties in European Nations to promote the “Open Borders” concept, the more ethnically diluted the population of cultural roots and heritage, the easier to control since most foreigners vote Democratic. With Artificial Intelligence, advance industrial technology and desperate foreigners in search of sanctuary, those in power can pretend to live like gods while manipulating environmental factors, employment and the population. I believe Henry Kissinger once stated: “Those who control food, control the population; those who control oil, control governments.

- 1.) The U.N. Agenda 21 Program of human depopulation consists of war, biohazardous or lethal vaccines, sterilization, food contaminants through genetically modified pesticides, tainted water sources and incarceration.
- 2.) The U.N. Wildland Conservation Program regarding land confiscation is being accomplished through economic warfare by promoting poverty, increasing the cost of living while saturating the country with competition of labor sources. I also believe that weapons from the Military Industrial Complex such as High-Frequency Active Auroral Research Program (HARRP), cloud seeding and possible satellite technology may also be a major factor involved with creating chaotic weather conditions and earthquakes which destabilize and destroy residential infrastructures forcing people to relocate, spend money and re-begin their lives.

- 1.) President Putin, would you comment or confirm that the current argument of “Global Climate Change” is largely due to the wants and needs for control of resources by the ruling elite, government agencies or political establishments and that weather anomalies are not made by the actual emissions claimed, but possibly by man-made ingenuity of weapons of mass destruction with the intent to destabilize such as the High-Frequency Active Auroral Research Program (HARRP).

World War 2

Connecticut Senator, Prescott Bush during World War 2 was caught aiding and abetting Hitler in which Senator Bush was convicted of “Trading with the Enemy Act” regarding participation of financial support of the Nazi Party during the war. Prescott Bush is also the father of George H. Bush, former CIA Director and former U.S. President. Is it possible that World War 2 was strategized to:

- 1.) Create Israel as a military installation in the Middle East while protecting the investment of Saudi Arabian oil and justifying sanctuary and survival for Jews in the holocaust.
- 2.) Steal and confiscate all finances, gold and valuables from the Jews in Germany while looting all other countries defeated through invasion.
- 3.) Acquiring new land, real estate and large national gold depositories through invasion and confiscation.
- 4.) Create free labor in Nazi Labor Concentration Camps such as Auschwitz.
- 5.) Profit through making and selling military weapons, oil, food, war bonds and other necessities.
- 6.) Emotionally and psychologically destabilize Europe through fear of terror.
- 7.) Provide military support and security to weaker countries, while offering to provide protection for their gold, jewels and other valuables to be relocated safely with-in the United States.
- 8.) To weaken the Soviet Union.

- 1.) Is it possible that either Great Britain, the Federal Reserve and IMF or the United States strategized and financially supported World War 2 using Germany as a focal player in order to profit by

controlling both sides of the conflict while denouncing Hitler and yet participating in the war, using the confiscated American gold of Executive Order 1602 as collateral while promoting the sales of U.S. War Bonds and military aid?

- 2.) What happened to the confiscated gold of Japan, Germany and countries which were defeated and invaded?
- 3.) Is it possible that creating chaotic environments and destroying underlining infrastructures made it easier for governments promoting the wars to execute internal and external rivals while re-establishing control on new or existing acquisitions of property, legal entitlement as well as political, governmental and civilian personnel/populations?
- 4.) Is it possible that the Democratic Party and the last several former White House Administrations involving the Bushes, Clintons and Obamas along with the Deep State Government such as the FBI, etc. are planning to replicate another Holocaust in removing Caucasians or certain cultural groups regarding freedom while depopulating society and restructuring it in a manner that suits the world elite or a North American Union?
- 5.) Could the last several United States White House Administrations be using and assisting China's test prototype of promoting a "Social Credit Compliance System", which consists of:
 - 1.) Using mass public population surveillance systems.
 - 2.) Monitoring and classifying all communications of citizens via internet, cell phone, email, social media, etc.
 - 3.) Identifying through surveillance all social media groups and who they interact with.
 - 4.) Using RFID technology to track the population.
 - 5.) Rating and grading all citizens based on interaction, purchasing trends, demeanor, political involvement and government compliance.
 - 6.) Ostracizing from society those considered as dissidents or undesirable either based on ethnicity, religious beliefs or government compliance.
 - 7.) Implementing depopulation through exterminating all civilians who fall below political and government structured guidelines deemed as acceptable.

Could China's current government or Hitler's Nazi Party be or have been involved in a military strategy with U.S. allies to test concepts related to population control and the Military Industrial Complex such as:

- 1.) Disarming the civilian population.
- 2.) Influencing population control through propaganda and fear.
- 3.) Creating an un-opposed internal governmental infrastructure to rule the citizen population.
- 4.) Destabilizing nations using force and terror.
- 5.) Confiscating natural resources, land, precious metals and valuables of opposing countries.
- 6.) Profit through slave labor in prisons.
- 7.) Test new military weapons, bio-chemical warfare and testing results of forced economic sanctions.
- 8.) Terrorize, torture and violate civil rights of civilians through accusations of treason.

The gold the United States Federal Reserve claimed to safely protect and hold for countries during World War 2 has never been seen since, even after rightful owners and governments requested its return or even proof through visual confirmation. The Federal Reserve claims the gold is not available for viewing and will not be available for return until the year 2020. I suspect that if an incident should occur, it will happen within the next 1-2 years. Hitler's rise to power accelerated after the German Reichstag Fire, as did the Bush Family after the September 11, 2001 incident. If history sometimes repeats itself, is it possible that President Trump could be framed by our own Deep State Government in an assignation plot similar to the circumstances of what instigated World War 1? And could either Russia, China or Iran be framed for the blame due to retaliation of tariffs and economic sanctions?

- 1.) Is it possible that the Federal Reserve has moved the gold off U.S. soil?

- 2.) Is it possible that another U.S. false flag attack will deviate attention away from gold inquiries similar to the way that trillions of missing dollars disappeared from the Pentagon and was forgotten immediately after the September 11, 2001 attacks?
- 3.) If and when I am U.S. President, if I want to corner and freeze all financial assets from the Federal Reserve and appoint an immediate audit and investigation of Federal Reserve members, how do I accomplish identifying the members before what I expect to be a swift disappearance? and is there a way to trace large depositories of gold through satellite imaging?

Could China or some of the surrounding countries have made a deal with the last 4 White House Administrations of:

- A.) Purchasing mass quantity of merchandise for discounted prices for their own corporate investments of monopolizing the market such as Walmart?
- B.) Allowing migration into the United States through “Open Borders” with access to citizen status.
- C.) Allowing foreign governments access to purchasing U.S. land, investing and starting businesses as well as participating into politics as long as they comply with Deep State Government directives.
- D.) Gradually depopulate the U.S. native population which promotes the U.S. Constitution and the 2nd Amendment of Freedom to own guns.
- E.) Eventually over throw Russia, Syria and Iran with the intent of confiscating land, gas, oil and other natural resources.
- F.) Use “Open Borders” to smuggle into the United States, terrorists or foreign soldiers such as U.N. Soldiers masquerading as ANTIFA to assist the Democratic Party in another Civil War against Republicans in order to justify the U.S. Government to suspend the U.S. Constitution through Martial Law.

I believe either Great Britain’s Queen or the Federal Reserve is the key to the continuous devastation of the Military Industrial Complex and the reoccurring conflicts and wars. I understand there is no intrinsic value or gold backing of the U.S. Dollar and therefore intimidation, war and economic sanctions are the only true variables which keep the dollar existent, however I do believe there is another way to address and permanently resolve the current crisis and I will keep you involved through my letters to President Trump.

The Ultimate Threat

I believe the U.S. Constitution is one of the greatest ultimate threats against pure dictatorship. I refer to the connection between the Federal Reserve and the Queen of Great Britain because even through the conventional war of 1776 may have been won to those of our great fore fathers who declared independence, the war may not have ended there. Perhaps the war was only delayed and returned using economic warfare through the Federal Reserve in 1913.

I don’t envision a U.S. 23 trillion dollar deficit being repayable. Like anyone who maxes out their credit cards and can’t repay the debt, the credit is subject to cancellation. That is what I believe is occurring, the world realizes the U.S. Dollar is losing or has lost it’s value and among a complex strategy for world domination through a (New World Order) Global Government, the first, two phase system is in place where Russia, China and multiple countries are being contained through military force, while other countries are being defeated through sanctions and economic warfare.

The people of the United States however are being manipulated internally by our own government using economic and psychological warfare, creating medical conditions and promoting pharmaceutical addiction, government over-reach through legislation, propaganda through social media and entertainment agencies, the White House (Deep State Government) collaborates with media industries, political establishments, wealthy elite and banking institutions. I believe their goal is to promote a complete slave

state mentality by exterminating the U.S. Constitution and eliminating the entire population that has any rebellious spirit to challenge authority.

I believe President Trump prefers peace but is being forced by the Federal Reserve, the Deep State Government and members of the Political Establishment who's visions are not aligned with Americans who support the U.S. Constitution. I suspect that Presidential Candidate, Trump was correct in claiming that the election process is rigged and corrupt, however the tone during the election process changed when he began referring to angry American Gun Owners taking a stand, which in reference was possible retaliatory measures from a civilian approach against the U.S. Government should Democratic Presidential Candidate, Hillary Clinton succeed and win the election.

- 1.) Is it possible that the Far Left, Democratic Party is behaving so irate, because there is a chance that an economic crash or another false flag attack is scheduled leading President Trump and you in being framed as the cause or "Escape Goat" giving further justification that the Republican Party is incompetent?
- 2.) I understand that you are a communist and there is benefits to communism as there is benefits to socialism and capitalism depending on the services and products provided to the civilian population. Would you please confirm or oppose that the U.S. Government or Deep State Government is changing society, foreign and domestic from the standpoint of a dictatorship role similar to Russia's Stalin, China's Mao or Germany's Hitler before the civilian disarmament or genocide occurred?
- 3.) At any point and time have you heard of the term "Bail-in" which is defined by a banking institute to legally confiscating client bank accounts?
- 4.) If Great Britain's Queen and the Royal family is creating "Open Border" conflicts, due to U.S. destabilizing Europe and the Middle East as a tactic, is there a chance that it is promoted in order to influence control in the voting process using the Far Left Democratic Party to manipulate elections using votes from foreigners to block nationals from voting for independence from Great Britain and to separate away from the European Union, I'm referring to "Brexit". In other words is Open Boarders being used by Great Britain to stop countries from leaving the Queen's reign of power and ownership?

Thank you for your time; I understand you are an important and busy man. Any response you can provide would be honored and appreciated. Please give my regards to Edward Snowden, he is honored and viewed by the American people as a true U.S. Patriot. Would Julian Assange ever be eligible for sanctuary in Russia? Below are similarities between the Nazi Party and the U.S. Deep State Government, please feel free to add or change anything; A televised response from Russia reaching out to the American People after the November elections could expose the truth about Russia being targeted by a Deep State Government's attempt with instigating a World War 3 conflict. I look forward to hearing from you if its possible and I hope I have your permission to post your response/letter to my website for public viewing at paulmacchia.com or usconstitutionmovement.com.

Sincerely, U.S. Presidential Candidate 2020, Paul Macchia
