HEAD TO TOE PROTECTION

Gas meters, TICs, and the SCBA you need to keep pace with safety improvements for the next 15 years

EVOLUTION® 6000

S 799E2

The best rescue cutter ever designed.

This eDRAULIC® cutter can't wait to get its blades around today's bigger, stronger, meaner steel with an 8.03-inch opening. It has no problems with modern B posts and tool swing challenges aren't a problem when cutting A and B posts either — just cut them easily at a comfortable perpendicular angle. This cutter is so strong it gets an NFPA rating of 9 in all categories, making it the best in class.
