Week 1 Best Bet:

Alabama -8.5 over Florida State

Our early power ratings project this line closer to -14 and we think this line will close Alabama -10 at minimum. We do believe Florida State will be the most improved team in the country but that's not saying much considering the Seminoles were just 2-10 last season. On the other side, Alabama is a legit National Title contender with 14 returning starters, an improved passing attack and one of the most talented defenses in the country.

2025 Season Packages and Changes to Service

In this issue you will find some CFB information including returning experience, recruiting rankings, transfer portal rankings and team-by-team schedules that can jump start your 2025 handicapping process. It also contains early Week 1 odds, National Title futures, Heisman futures, Conference futures, season win total numbers and a few best bets (one on page 1, two on page 7).

We are once again doing our weekly football newsletter this year. After not doing weekly write-ups in 2023, we had several complaints (an understatement). We listened and we went back to doing write-ups last year for every CFB and NFL game each week along with score predictions and will do so again this season. We will also have logs for both CFB and NFL. We will go back to releasing the newsletter on Wednesdays like we did for so many years. However, we will NOT have BEST BETS in the weekly newsletter. That will be VIP only. If you want CFB picks, but can't afford the \$499 VIP, we recommend betting our power ratings. For the past nine seasons we have posted computer projected lines for every game. Games where there was a difference of more than 3 points saw our computer lines actually beat the Vegas line at a 506-441-14 (53.4%) clip! That's pretty solid and actually better than our own handicapping in some seasons. Keep in mind, these computer lines don't take into consideration off-the-field factors like revenge or flat spots or if there are late-week injuries. They are basically a power-rating number difference between the two teams that also takes into consideration the home field advantage.

Do note we release many of our plays early to VIP customers and that will start in May this year including Week 1, season win totals and more. With each passing year, we have more influence on markets and if getting the absolute best number is important to you, VIP might be worth your while this season. It is \$499. Our VIP CFB/NFL picks were 59% last season during the season (see page 15 for a listing of every pick). You will receive the picks via email and telegram. You can sign up today at bradpowerssports.com. If you want to learn more about the differences between our weekly newsletter vs VIP service, refer to page two of this issue or simply email brad@bradpowerssports.com.

Finally, on a personal level, after nine years in Las Vegas, we will be moving our offices back to Ohio this season. For those old timers that still send us notes via the mail, we will have an updated address for you in the coming months.

Best of luck this season,

Brad Powers

Connelly's returning production formula looks at the most predictive key personnel stats -- the numbers that have the most impact on improvement or regression from season to season. For example, what percentage of your QBs' combined passing yardage is returning? Your offensive line snaps? Your defensive tackles for loss? **OV = Overall % of Production Returning. OFF = Offense % returning. DEF = Defense % returning.**

Bill Connelly's Returning Production Percentages for 2025

Texas Ranks No. 1 in 247Sports 2025 Team Composite Recruiting Rankings

BP Sports used to do an average of all the major recruiting service rankings to come up with our own rankings. However, the 247Sports Composite rankings already does that for us. It is a proprietary algorithm that compiles recruiting rankings and ratings listed in the public domain by the major media recruiting services (ESPN, Rivals, 247, On3, etc) creating the industry's most comprehensive and unbiased prospect and team rankings. (Total = # of signees, 5★ = # of star-rated signees, etc).

LSU Ranks No. 1 in 247Sports 2025 Transfer Portal Rankings

The transfer portal is becoming more and more prominent in CFB with each passing season. This year already more than 2,000 players have transferred to a FBS school with another 1,000-plus players still left in the portal. Following the portal is just as important, if not more, than recruiting at this point because we are talking about players with CFB experience and can be instant impact players. Below is a list of the 247 transfer portal rankings per school.

Spring Game Notes

Spring games can be a "hot topic" in the sports betting community on how much they really matter, if at all. Obviously, it's just one practice out of 15 during the spring but it is usually played in front of fans inside the stadium with the most "game-like" situations. Personally, I'd rather watch them than not watch considering college basketball season is done, I don't bet baseball and am involved very little with the NBA.

A lot of people ask me can a spring game change your outlook on a team or change their power rating? The answer is 90% of the time I don't do anything with a team's power rating after watching their spring game. What I'm looking for in watching spring games is more about new players, new coaches and new schemes.

- Can the new starting QB throw back shoulder, an out pattern, vertically down the field consistently, etc.
- If the starting QB got hurt during the season, what's the skill level of the backup QB's?
- Can a defensive tackle/nose tackle move the point of attack and take up blockers.
- How do the LB's move sideline to sideline.
- How deep is the team at WR?
- Can their secondary defend space?
- What do the new coordinators systems look like?
- What's the overall vibe and energy around the team?
- How many starters are sitting out? Am I seeing the "real" team?

That's what I'm specifically looking at when watching these games. So if I have a ton of question marks about a team and they answer most of them especially at QB, then I can bump up a team's rating. If they don't answer them and the QB(s) look bad then on rare occasions, I lower a team's rating.

2025 Returning Starters Power 4 Conferences Only

These are our current returning starters for Power 4 teams. We don't include incoming transfers who started at a different school in 2025. OFF = returning starters on offense, DEF = returning starters on defense, Total = returning starters on both offense and defense, * next to the offense number = returns starting QB.

Three Early CFB Best Bets

Week 1 Best Bet: Alabama -8.5 over Florida State

Our early power ratings project this line closer to -14 and we think this line will close Alabama -10 at minimum. We do believe Florida State will be the most improved team in the country but that's not saying much considering the Seminoles were just 2-10 last season. On the other side, Alabama is a legit National Title contender with 14 returning starters, an improved passing attack and one of the most talented defenses in the country.

Conference Future Best Bet: Clemson to Win ACC +225 or better

Clemson won the ACC last season and we think this year's team is much better. The Tigers rank No. 1 in the country in Bill Connelly's returning production (see page 3) with 16 returning starters led by QB Cade Klubnik. Our power ratings have them more than a FG better than anyone else in the ACC. We think this number should be closer to +150.

Season Win Total: West Virginia UNDER 5.5 Wins -130 or better

If you have blindly bet UNDER the win total on every first year head coach the last four years, you are hitting 57%. We use the last four years because that's when the transfer portal became more prominent and there is more roster turnover with first-year coaches than most programs. While we like the Rich Rodriguez hire for West Virginia long-term, we do think the Mountaineers will struggle this season. They return just three starters and we currently project them to be an underdog in 10 of their 12 games and our ratings currently are projecting 4.6 wins.

All Preseason Best Bets will be released in the CFB Preview (July 16th)
