

COSMOLOGY OF CHRIST'S BIRTH

The Cosmology of Christ's Birth series does not venture to guess or speculate on the actual date of Jesus Christ's birth but rather emphasize and focus on the peculiarities of the cosmology that perhaps might give additional clues as to the window of the probable time of the King's 1st Advent. This illustration features the depiction of the cosmic configuration of the winter -1BC as it pertains to the window of time after that Jesus Christ was born in Bethlehem. Looking south over the horizon around October 8th, Jupiter is aligned with Spica in Virgo. Spica refers to the Coming of the Branch, the Messiah that would come from a Virgin conception. In terms of sacred geometry, this position of Jupiter is in approximation to the Celestial Star Gates.

These Gates are the Golden and Silver Gates. If the heavenly skies are bent to show an equilibrium of proportion, the rendition of the cosmos resembles the IXOYE 'fish' sign. If such an inference is possible, it would coincide to the forthcoming Age of Pisces and the subsequent Age of the Church with a commission to catch men as fish unto salvation and the Kingdom. This would have been a very powerful message as those that read the stars could not avoid. In summation, it reads, Bootes the coming Crowned Coming Prince is coming as he is the Royal lineage birthed of a Virgin, the Promised One, Messiah, chosen to crush the Head of the Scorpion but at a sacrifice, a piercing of the victim that will die on a Cross.

When Jupiter is aligned with Spica in Virgo, it becomes center geometrically of the 3 primary stars of Antares-Arcturus-Regulus. It configures a pyramid that alludes to the sacred pattern of the Great Pyramid of Giza. The sign of Virgo is the only constellation that anthropomorphically gives birth.

A False Prophet

This study supposes that as the first advent of Jesus Christ was characterized by 3 major circumstances that pertained to the Holy Land, the world and Israel, so too will His 2nd Advent likewise mirror the conditions. There are 4 main factors that were present at Jesus' visitation to Earth. 1) There was an AntiChrist political leader that ruled the world. He was ascribed a 'son of the gods'. 2) the Jews were ruled by a usurper 'king' that sought to appease the Jews by beautifying the Temple and thus was a defacto High Priest or False Prophet. 3) The Land of Israel was divided by various Roman and proxy rulers. And 4) the Temple stood as a symbol of national Israel.

'KING OF THE
JEW'S'

3.

A Divided Land

If the pattern is valid, then Jesus Christ will come at such a similar time when it will be the same world empire system, that of Rome that will have an AntiChrist that will seek worship as 'god' and present himself as the Messiah. There will be a world religious leader, the False Prophet that will direct the masses to this 1st Beast. Likewise, Israel might will be divided as part of a Peace Process or concession that would allow for the 3rd building of the Temple in Jerusalem.

An AntiChrist

1.

'SON OF GOD'
Caesar Augustus

After the Visitation by the Magi during the Winter Solstice, Jupiter began its retrograde in the head region of Virgo perhaps as an indicator of how the Magi parted to their country another way, avoiding Herod and Joseph and Mary with Jesus were warned of the LORD to flee to Egypt. This would later prophetically correlate to how the LORD 'called my SON out of Egypt. This is in reference to Israel but singularly to GOD the SON. Hosea 11:1 (From Nazareth to Bethlehem is 111 kilometers)

The trek from Bethlehem to Egypt was around 270 miles and took perhaps 9 or 10 days to complete at 30 miles a day.
