

Wrapped in Love Spring Notes 2020

Hello Everyone!

Our Shawl drop-off / Yarn pick-up was a huge success, we now have 120 items in stock! I plan on slowly releasing them over the next few weeks. In addition, I have already sent out 52 that were collected since our last meeting. Thanks to all who came out for our event – it was great to see some of our volunteers, even behind masks! We will likely have another drop off coming up in July.

Those of you who attend our packaging meetings will remember Carolyn LoBue, who sadly passed away in May. Carolyn was a devoted volunteer for the last two years and blessed us with her amazing crochet skills and willingness to assist at every meeting. As an emergency room nurse for 51 years, she was an advocate for organ and tissue donation. Upon retiring 2 years ago she volunteered for several organizations and we were fortunate she chose our Wrapped in Love program among them. At our Drop-off event yesterday, her daughter Lisa brought two beautiful blankets Carolyn had crocheted for us since our last meeting. As I admired her lovely work and reflected on her generosity and kindness, I also thought of the countless people she must have comforted throughout her life. I am sure these special blankets will continue that legacy. Carolyn will be remembered for her giving nature and dedication to our program. She will truly be missed.

I hope everyone is staying safe and thank you for your continued support.

Hope to see you soon.

In Gratitude,

Lisa Colasurdo
