

March 24, 2020

My Customers, My Friends,

Something For Kids was borne on the idea of making a safe and productive environment for businesses when children are with their parents. Today, we are solely focused on taking care of our Something For Kids community. Thus, effective immediately:

1. We will continue to provide extra Hand and Surface Wipes for as long as we can at no charge. These deliveries are considered essential by the State of Washington.
2. We are rolling back all rent, exchange and warranty fees up to 90% to a simple On Hold charge. The rollback percentage reflects your current usage.
3. We will continue to service all stations if we have access to them. If you are short of wipes or need an exchange, email gary@somethingforkids.com.

This is a difficult time for all of us because we have no grasp of the outcomes ahead. For the short term, we feel that discounting our services and distributing free wipes is the morally right thing to do while we wade through these days of uncertainty.

Something For Kids is a small business, as are many of you. This pandemic is hurting us but business at this point is so secondary and of little importance compared to the health and wellbeing of our larger community. Please reach me via my cell 206-890-3543 (we are not answering the main office line) or as always via email at gary@somethingforkids.com. Thank you for your support and patronage.

Respectfully,
