6LQJOH &ODLP &HOO

A mining claim, other than a boundary claim, relating to all of the land open for claim registration within one cell on the provincial grid.

claims) with the same claim holder, convert and are located in the same cell, and the claim holder has elected prior to conversion (via a Client Boundary Claim Report) to prevent the automatic merger of those claims into one single cell claim. This results in separate boundary claims and the cell becomes a boundary cell.

%RXQGDU\ &HOO

A cell on the provincial grid, which as a result of conversion of legacy claims, contains one or more boundary claims.

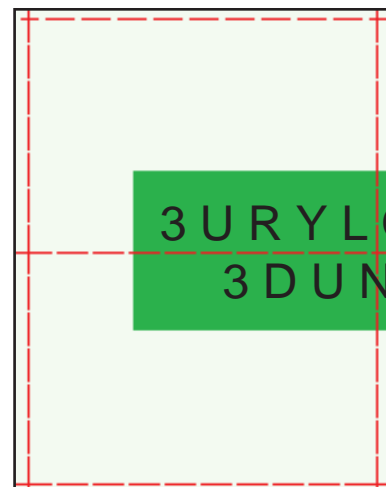

%RXQGDU\ &ODLP

A claim created only at conversion when:
Two or more legacy claims (or parts of claims) held by different claim holders convert and are located in the same cell. The legacy claims within this cell become boundary claims and the cell becomes a boundary cell.

Or
Two or more legacy claims (or parts of

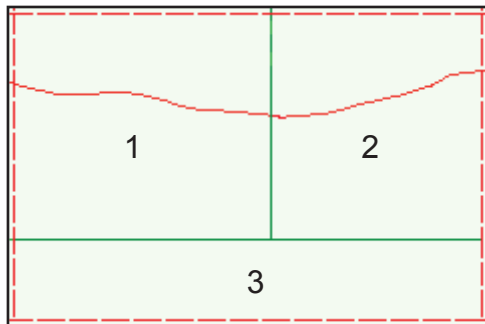

(QFXPEHUNG &HOO

The cell is not fully available due to other restrictions on the land. An encumbrance on the cell can be any one of the following:

- First Nation Reserve
- Provincial Park
- Mining Rights Only Leases, Surface and Mining Rights Leases
- Mining rights Only Patents, Surface and Mining Rights

These two cells are encumbered by a provincial park.

Boundary cell with three claim holders
