

ISRAELI 70-YEAR ANNIVERSARY

THE FIG TREE GENERATION HAS MATURED

The purpose of this illustration is to ascertain several news worthy event surrounding Israel's 70-year anniversary. The celebrations culminated on April 20, 2018, which based on the *Hebraic Calendar* was Iyar 5. That was when David Ben Gurion made the *Declaration of Independence* on May 14, 1948. It was also Pentecost by some accounts. Based on the solar *Gregorian Calendar*, the secular celebration occurs on May 14 2018. What this study will bring to mind is the backdrop of the Israeli strike on the Syrian airbase that left several *Iranian Revolutionary Guards* IRG dead and its repercussions. These repercussions will eventually be military, as in the Ezekiel 38 War when Iran as part of the Russian-led Muslim invasion of Israel will penetrate Israel. However, the Iranians along with their Russian and other Muslim allies will fall on the *Mountains of Israel*. The 'war of words' between Israel and Iran has not become a direct confrontation for the first time since Iran has made threat to annihilate Israel and even sent in a drone in early February of 2018. Realize that in essence, this confrontation is foremost a spiritual one. It Biblically echoes the threats made by Rabshakeh to Judah during the reign of King Hezekiah as it is now with that of the Iranian high command. This study will make the case that Israel will increasingly need to draw closer to YHVH as a nation and as a result, the need for the 3rd Temple will be paramount to have during such times. In the case of King Hezekiah, such could have gone to the Temple as he did to petition YHVH against such enemies that wanted to destroy them 'off the map' as Iran's Muslim Mullah's and General constantly taunt Israel with. This study will also speak on the amazing imagery displaced at the night ceremony on *Mount Herzl* in Jerusalem that displayed a prophetic motif of the *Fig Tree* pertinent that is parable of Jesus Christ. The 70th year anniversary means that Israel has now matured.

Subsequently, Iranian General Hossein Salami tweeted very interesting remarks against Israel. Some would say the rhetoric was prophetic that mirrors the same spirit, that being the *Spirit of AntiChrist* against Israel of what *Rabshakeh* said against the leader and people of Judah. He also made a menacing speech in which the same rhetoric was amazingly similar and perhaps even prophetic in comparison to *Rabshakeh's* as well. Nonetheless, Israel's 'red line' is Iran's military encroachment into Syria that is only a staging ground to invade Israel and it will happen. The strikes by Israel upon Iranian targets in Syria have only embolden the Muslims against Israel. As noted, it was the first time; Israel and Iran have had a direct confrontation in Syria.

Israel took opportunity of the prior chemical attack to strike Iranian targets. The aim is to keep Iran in check but it has just disturbed the 'bee hive'. Moreover, Israel and the Kurds are the only people that stand to lose in having the USA pull out of Syria. rael's defense establishment and various intelligence services believes an Iranian revenge attack is coming. What is the big deal? This would be a departure from previous clashes between Israel and Iran, in which Tehran's reprisals were carried out through its proxies, most notably the *Hezbollah* terrorist organization.

Is it any coincidence, Biblically speaking, that General Hossain Salami, threatened Israel in an address in Tehran, on April 20, 2018, the same day Israel celebrated its 70-year anniversary? What was not reported or written about is that during this day, Prime Minister Netanyahu took the Cabinet to the *Hall of Independence* in Tel Aviv where David Ben Gurion first declared Israeli independence 70 years ago.

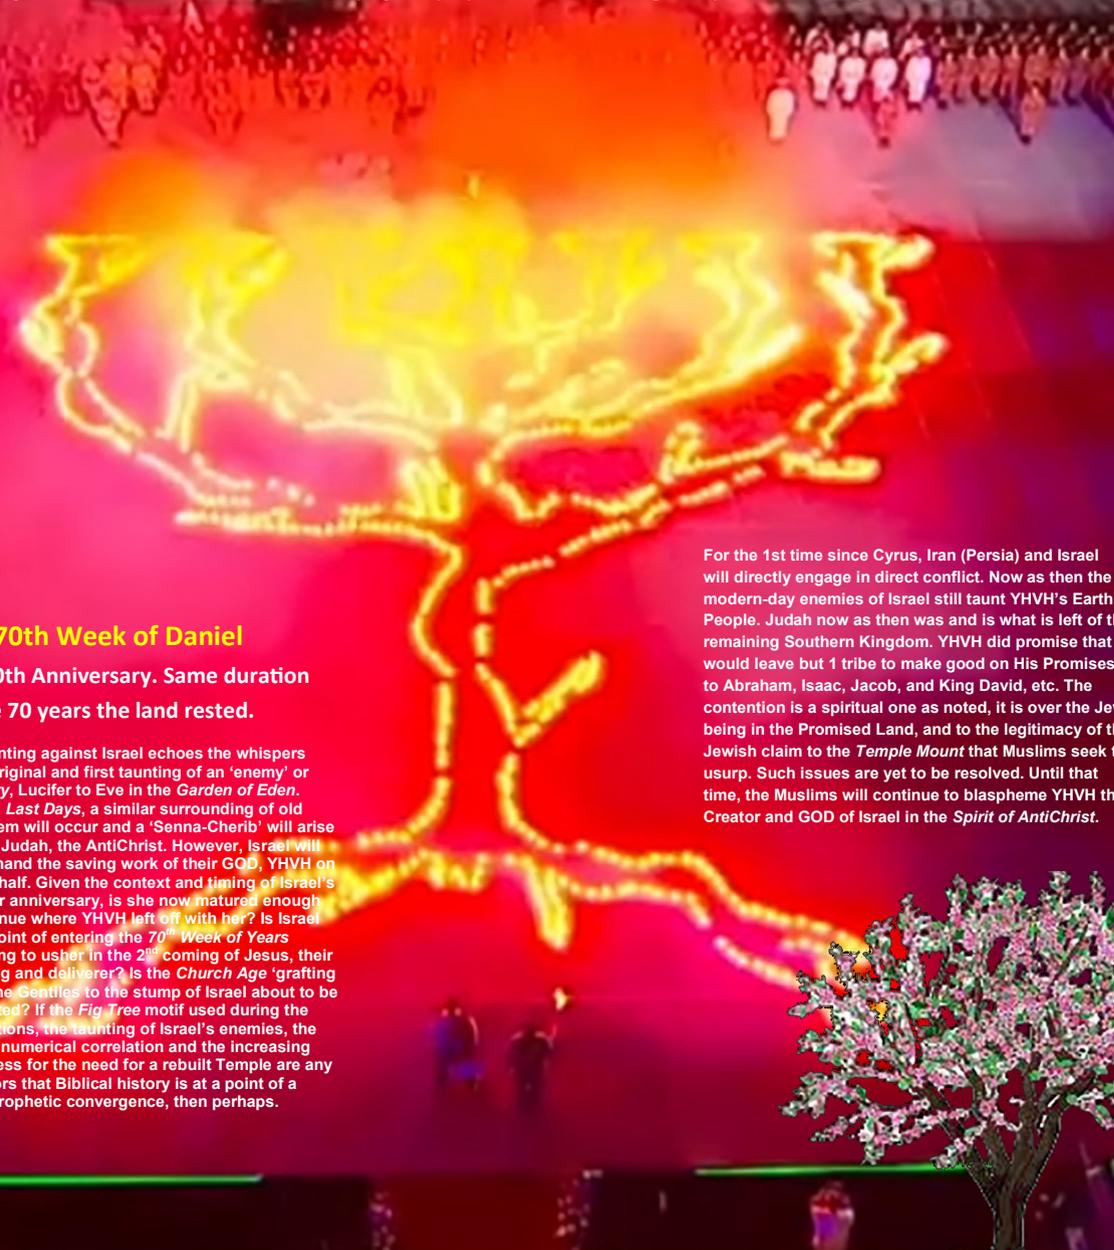

70 AD + 2018 years = 2018

the 70th Anniversary. Same duration as the 70 years the land rested.

The 70th Week of Daniel
the 70th Anniversary. Same duration as the 70 years the land rested.

The taunting against Israel echoes the whispers of the original and first taunting of an 'enemy' or *Advisory*, Lucifer to Eve in the *Garden of Eden*. In these *Last Days*, a similar surrounding of old Jerusalem will occur and a 'Senna-Cherib' will arise against Judah, the AntiChrist. However, Israel will see 1st hand the saving work of their GOD, YHVH on their behalf. Given the context and timing of Israel's 70th year anniversary, is she now matured enough to continue where YHVH left off with her? Is Israel at the point of entering the *70th Week of Years* remaining to usher in the 2nd coming of Jesus, their true King and deliverer? Is the *Church Age* 'grafting -in' of the Gentiles to the stump of Israel about to be completed? If the *Fig Tree* motif used during the celebrations, the taunting of Israel's enemies, the 70-year numerical correlation and the increasing awareness for the need for a rebuilt Temple are any indicators that Biblical history is at a point of a major prophetic convergence, then perhaps.

For the 1st time since Cyrus, Iran (Persia) and Israel will directly engage in direct conflict. Now as then the modern-day enemies of Israel still taunt YHVH's Earthly People. Judah now as then was and is what is left of the remaining Southern Kingdom. YHVH did promise that He would leave but 1 tribe to make good on His Promises to Abraham, Isaac, Jacob, and King David, etc. The contention is a spiritual one as noted, it is over the Jews being in the Promised Land, and to the legitimacy of the Jewish claim to the *Temple Mount* that Muslims seek to usurp. Such issues are yet to be resolved. Until that time, the Muslims will continue to blaspheme YHVH the Creator and GOD of Israel in the *Spirit of AntiChrist*.

'Learn the parable of the Fig Tree'.—Jesus

The drones lit-up the Jerusalem skies with light images of the *Fig Tree*. As to the *Fig Tree* motif, Jesus' inferred Israel as being the *Fig Tree*. Many would not agree with such a metaphor. However, in the Biblical context, it does support how such a motif was to be 'cut down' and the Gentiles 'grafted' in, etc. Jesus taught that He came looking for 'fruit' but found none. If Israel is indeed as the *Fig Tree*, as the Menorah almond tree nation, perhaps this 70th year marker will be prophetic in that the 'Fig Tree Nation' has matured. What does this mean? Could it mean that the grafting-in of the Gentiles is about to conclude and Israel is about to enter Daniel's 70th *Week of Years*.

The Menorah represents a tree. As to the type of tree, it is an almond tree. The almond tree blooms in late January and has it harvest in late August and mainly in September. Some go as far as to suggest that it is the representation of the *Tree of Life*, etc. There is a strong connection that the 'Forbidden Fruit' eaten by Eve and Adam was perhaps the *Fig* as they subsequently then sowed themselves *fig leaves* to cover their nakedness that was realized due to their 'illumination'.
