

PRESS RELEASE

Bayer welcomes Advantage VM as an Agent of Bayer's Vegetation Management products.

February 6, 2017
Guelph, ON

As a part of its continuing support of the Vegetation Management industry Bayer is pleased to announce the expansion of its distribution network to now include Advantage VM. Advantage VM will offer the full line of Bayer's vegetation management products including Esplanade™, Truvist®, Navius® VM, Navius®, Telar®, and Escort®.

Bayer is committed to bringing the latest innovation to the vegetation industry including Esplanade, Truvist and Navius and look forward to working with Advantage VM to provide our customers with all of their Vegetation Management solutions.

For more information on Bayer products please contact your local Univar or Advantage VM sales representative.

Advantage VM
