SK8900TV treadmill

FEATURES

- Large format, high-definition 19" screen. NESK monitors with integrated TV include a large format 19" screen, one of the largest on the market. Users are able to enjoy their favorite TV programs in full screen mode while they exercise.
- Each NESK monitor comes with integrated TV and includes iPhone® and iPod® connectivity via a 30-pin connector (newer devices are compatible using the Apple® Lightning Connector).
- The Easy Toolbar has been designed for quick adjustments and is built into the front handrail. This includes contact heart rate sensors, one-finger speed and incline buttons, and the emergency stop.
- Attractive curved profile s-shaped monitor, with a carefully designed 45 degree incline, provides an optimal viewing angle and easy access to all of the controls during the workout.
