

***Buying vs.
Buying Into***

In a society of
consumerism
there is too much
buying,
but not enough of
buying into.

Buying pertains to a
purchase;
buying into involves
commitment.

Buying items
leads to
accumulation;
buying into
is a matter of
dedication.

When you buy
a commodity,
you possess it;
if you buy into
an enterprise,
it owns you.

We shop before
we buy;
you pray before
you buy into.

St. Paul says Christ
paid a great price
to buy us,
Therefore,
it is His
cause and kingdom
that we buy into.
