## New Springs Valley Bank "Groundbreaking"

Last month we broke ground on a new project. Our local bank, Springs Valley Bank & Trust is relocating to a new facility that we have the privilege of constructing. The facility will be located between our two towns, French Lick and West Baden.

We are very happy that the bank has put their faith & trust in us to provide this service. We at Lindsey's have a long standing relationship with the bank, Kimball's & the Habig Family and are proud of what we have achieved together.

Jamie Shinabarger read a short poem about the banks commitment to the valley over the course of years from inception. I would add the facts of Kimball employment, bringing in doctors & facilities when the need arised. Also, the support of the fire department, little league and the city park. The bank also supported every civic organization that requested their help. That folks, has been a lot of commitment! I hope it's not taken for granted.

# Heat Stress Prevention

As spring turns into summer and brings up "hot weather", we should all be aware of some tips to prevent heat stress. Remember physical activity at high temperatures can directly affect health and indirectly be the cause of accidents.

Heat stress is a signal that says the body is having difficulty maintaining its narrow temperature range. The heart pumps faster, blood is diverted from internal organs to the skin, breathing rate increases, sweating increases, all in an attempt to transfer more heat to the outside air and cool the skin by evaporation of sweat. If the body can't keep up then the person suffers effects ranging from heat cramps to heat exhaustion, and finally to heat stroke.

Dry clothes and skin doesn't mean you're not sweating.

In dry climates you might not feel wet or sticky, but you are still sweating. On a very warm day you can lose as much as two liters of fluid.

Beat the heat. Help prevent the ill effects of heat stress by:

- Drinking water frequently
- Resting frequently
- Eating lightly
- Doing more strenuous jobs during the cooler morning hours
- Utilizing the ventilation or fans in enclosed areas
- Remember that it takes about 1-2 weeks for the body to adjust to the heat
- Avoid alcohol consumption
- Wear light colored, cotton clothes

## Important Dates

July 4th

We will be closed Thursday, July 4th in observance of the "Fourth of July"

# Project Updates

## Ann's Loft

Scott & Kevin are putting up a canopy over the back door. This will complete this fun and spectacular job. I'm sure Ann will have plans for the lower level later.

## McIntosh Home

Jason & gang worked in some bad conditions to get this one started. Adam, Bob, Greasie & Steve are about to get it dried-in. Robert & Al-da are happy with what they see!

## Floyds Knobs "Booster Station"

The preconstruction meeting was Thursday, June 27th. and this project should be ready for immediate start.

## Hoosier Hills Credit Union

Finally worked thru unforeseen condition issues. Have approval and will start hanging drywall Friday.

## "New" Springs Valley Bank & Trust

Demo work complete. Rain slowing site work. Plan to start Geopiers mid July.

## Misc. Projects

- Walter Metal Roof
- Vertin Concrete Drive
- Orange County Outdoor Recreation
- Mark's Shelter House
- FLSR Painting

## Upcoming Projects

# We are pricing

Scooter says...  
I'm the boss around here!

- Brooks & Michelle Galloway's Home
- Tim & Kathy Burn's Home
- Aaron & Natasha Kemple's Home
- Homestead Renovation
- New Exhibit Center, FLSR

Success is getting what you want.

Happiness is wanting what you get.

- B.R. Hayden

## Birthdays

- 2 - Hope Lindsey
- 4 - Lisa Wellman
