IMIC Inc. Clinical Research began in 2009 as a dedicated research clinic in cooperation with 2 physicians. We are recruiting from a large population in Miami-Dade county – Larger Miami – around 2.6 million people. **Now after contracting more physicians our Principal Investigators' practices have active database of over 32,000 patients.** The research department has access to electronic searchable databases by billed diagnoses, so we are able to run searches for specific patient populations. We also maintain a research patient database of patients expressed a wish to participate or former participants in clinical trials in numerous diagnoses of around 1800 subjects. We have participated in more than 93 studies phases 1 to 4.

We have easy access to outside services as Radiology, Ultrasound, DEXA, Echocardiograms, CT, HVPG, PET-CT, MRI and GI procedures such as liver biopsy, colonoscopy or upper endoscopy. **Our site uses only Central IRBs and there are no other committees that need to approve any study.** We are proud of very fast turnaround of regulatory documents and contracts of 1-2 weeks.

Our center works with the following therapeutic areas:

- | | | |
|-----------------------------------|---------------------|-----------------|
| ❖ Child and adolescent Psychiatry | ❖ Internal Medicine | ❖ Neurology |
| ❖ Pulmonary | ❖ Endocrinology | ❖ Ophthalmology |
| ❖ Gastroenterology | ❖ Adult Psychiatry | ❖ Dermatology |
| ❖ Family Practice | ❖ Pediatrics | |
| | ❖ Anesthesiology | |

Our Principal Investigators:

- : Evelyn Lopez Brignoni MD – Child and Adolescent, and Adult Psychiatry
- : Miguel Rodriguez MD – Gastroenterology, Internal Medicine
- : Ramon Leon MD – Family Medicine
- : Ramon Guevara DO – Pediatrics
- : Gerard Arria-Devoe Md – anesthesiology
- : Adam Clarin OD – ophthalmology
- : Brad Herskowitz MD – neurology
- : Karen Kade MD - dermatology

Our research experience includes the following (not a complete list):

- | | | |
|------------------------|---------------------------------------|----------------------------|
| ▪ Allergic Rhinitis | ▪ Opioid induced constipation | ▪ Liver Cirrhosis |
| ▪ Hyperlipidemia | ▪ Low back pain | ▪ Alzheimer's disease |
| ▪ ADHD | ▪ Migraine Headaches (Adult and Pedi) | ▪ Bipolar disorder |
| ▪ Chronic Constipation | ▪ Obesity | ▪ MCI due to AD |
| ▪ COPD | ▪ Osteoarthritis | ▪ NASH |
| ▪ Fibromyalgia | ▪ Overactive Bladder | ▪ Agitation in Alzheimer's |
| ▪ Device Trials | ▪ Depression | ▪ Bipolar |
| ▪ Diabetic Neuropathy | ▪ Type II Diabetes | ▪ Autism specter |
| ▪ GERD | ▪ Crohn's Disease | ▪ Gastroparesis |
| ▪ Gout | ▪ Ulcerative Colitis | |
| ▪ Asthma | ▪ Diabetes type 1 | |
| ▪ Hypertension | ▪ Vaccine Trials | |
| ▪ IBS | | |

Our staff includes:

- ❖ 8 FT Coordinators (1 is a RN's and 2 are Certified CRC)
- ❖ 1 FT Financial & Regulatory Administrator
- ❖ 1 FT Lab Tech/Research Assistant
- ❖ 1 FT Office Assistant
- ❖ 1 FT Clinical Research Manager
- ❖ 1 PT Patient Recruiter
- ❖ 1 Pharmacy technician
- ❖ 1 Certified ARNPs as Sub-Investigator
- ❖ 3 Physicians as Sub-Investigators
- ❖ 1 psychologist

Our facilities have the following:

- 5 patient exam rooms
- Controlled access, double locked, temperature controlled drug room
- Video monitoring
- Monitor areas (wired and wireless capability)
- Lab area for processing and sending samples
- Ambient Centrifuge
- 3 ECG Machines
- Dry ice delivered weekly (IATA certifications maintained)
- Electronic Min/Max thermometers for all areas with email alerts- dataloggers
- 2 Refrigerators,
- 2*-20° freezers
- Spirometry equipment
- Vital signs equipment
- Defibrillator and emergency medicines with Oxygen
- Refrigerated centrifuge
- Yearly calibration of equipment
- Patient waiting area with amenities of 12 and 24 hour spirometry or PK samples
- Weight scales
- I-stat equipment for express blood gas analysis
- Oximeters
- Incubator
- Dedicated informed consent room
- Dedicated monitoring room
- Conference room
