

CSBA Welcomes New General Manager

The Canadian Sheep Breeders' Association is pleased to announce the appointment of Jane Underhill as General Manager effective November 1, 2020. The CSBA would like to express their appreciation to Linda Brandes for her talent and dedication throughout her mandate and wish her continued success in her future endeavors.

Jane lives in Montreal but is originally from Atlantic Canada where her connection to the ovine industry began. She brings extensive business and leadership experience to CSBA. Most recently she's been a consultant for SMEs in various sectors including agriculture, sustainability, and natural fibres.

On a personal level, she's been active in promoting healthy communities through urban agriculture, green innovation, and "buying local" initiatives. She's a proud member of Upper Canada Fibreshed and an advisor to The Campaign for Wool and The Canadian Wool Council.

Jane speaks English and French fluently and is looking forward to getting acquainted with breeders and industry leaders from all regions in Canada.
